BTB Auto Glass & Body Shop Tools 2015

Hand And Power Tools Catalogue

Your One Stop Shop

BTBTOOLS.COM

INTRODUCTION

BTB Tools is Australia's One Stop Shop for specialised tools, accessories and consumables to the auto glass repair & replacement, collision repair and vehicle dismantler industries.

A Family Business With Customer Service At Its Heart

From his early days in the collision repair and windscreen repair & replacement industry, the company founder, Trevor Lock, identified a need for better tools to service the industry. The company's flagship BTB Glass & Panel Removal Tool was born in the mid 1980s and has evolved to the world class tool it is today. BTB Tools has evolved over two generations with Trevor's daughter Kylie, and son Craig who also began his career in the auto body repair industry, extending the product range to meet many needs in the auto glass and body shop industry.

Industry Knowledge

With over 60 years hands on professional experience in the auto glass & collision repair industry, BTB are qualified industry experts. We are technological leaders for the safe removal of adhesive fitted auto glass, bonded panels & components, and provide training and technical support for the tools we sell.

On-Site Manufacturing

Our patented and unique BTB Glass & Panel Removal Tools and cutting blades are manufactured on site at our BTB Head Office in Bendigo.

Extensive Product Range And Stock

Offering a comprehensive range of specialised hand tools, power tools and accessory products, our warehouse carries over 1000 tool and accessory line items dedicated to auto glass and collision repair specialists.

Prompt Service & Delivery

BTB prides itself on its high standard in Customer Service. Responding to product enquiries is given top priority. Our aim is for same day despatch of orders received by 3.00pm (AEST). Orders can be sent to us via Phone, fax and e-mail. Enquiries can also be made via our btbtools.com website.

A number of our products are also backed by our in-house tool service / repair centre.

Leading Brands

BTB are distributors for leading brands within the industry.

BTB · Equalizer · UltraWiz · ESPRIT Windscreen Repair Systems · Marcy Auto Glass Products · BigEasy™

New Products & Continuous Improvement

BTB continuously reviews its product range and looks for products to meet new and existing needs in the industry. New products are frequently added to the range.

Incremental improvements and enhancements are also made to our BTB tool, to take advantage of new breakthroughs in manufacturing and materials technology, and to cater for new car models and industry trends.

Through our extensive supply network, if a product you are after is not in our range we are likely to be able to source it.

National And International Reputation

BTB products are distributed nationally through our dedicated distribution network. We have an international reputation and export our BTB tool worldwide to over 50 countries.

Terms & Conditions

All product returns must be approved prior by BTB and be within fourteen (14) days from receipt of delivery. Incorrectly ordered product returns may be subject to a restocking fee. Returned goods shall be in their original and unmarked condition, complete with any instruction sheets supplied.

The following goods cannot be returned for credit under any conditions:

- *Any goods specially made, including items cut to length*
- *Any goods used, altered or damaged by the purchaser*
- *Any goods having an invoice value of 10 (ten) Australian dollars or less*
- *Any goods especially indented and which are not normal stock lines*

All product returns must be freight prepaid by the sender.

All orders are to be prepaid unless trading terms are agreed prior by BTB.

Any prices listed are for Trade Customers. Prices and availability are subject to change without notice.

The supply of items may vary from time to time from the actual images shown in this catalogue.

Any unauthorised copying, duplicating or transmitting of this publication or any part thereof is strictly prohibited unless prior consent is given in writing by BTB Auto Glass & Body Shop Tools. Any infringement of copyright may be subject to legal liability.

Auto Glass & Body Panel Removal System

See the tool in action at btbtools.com/videos

BTB's versatile, precise, efficient and user friendly system safely removes any adhesive bonded auto glasses, body panels or decorative mouldings without damage to component or painted panel while avoiding operator injury.

This small, compact and powerful air tool operates blades to cut with precision from inside or outside of the vehicle, against the glass surface, or in the case of an encapsulated glass, the blades will safely cut away from the encapsulation and against the pinchweld or body panel.

Nylon control head & adjustable arms regulate cutting depth of all blades

Short & fast in-line stroke of the BTB air tool gives unequalled, gentle & balanced cutting action

PATENTED DESIGN

BTB has Registered and Pending Patents and/ or Designs Extending Worldwide applying to their Power Tools, Control System, and Cutting Blades.

Applications

AUTO GLASS REMOVAL

BTB Long blades easily cut urethane below any dashboard.

Cut from outside the vehicle with BTB's Powered Cold Knife blades.

Short blades cut from inside the vehicle with precise depth control.

For curved glasses, thin flexible blades follow the contour of the glass.

Excellent for removal of small and encapsulated glasses.

Save and reuse any undamaged glass or encapsulated glasses.

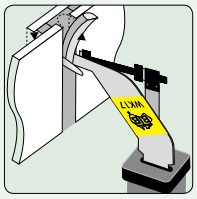
BODY PANEL & BADGE REMOVAL

Powerful tool & strong blades cut tough adhesive to remove bonded body panels.

Recycle adhesive & tape fitted badges, mouldings & bump strips.

BUS, TRAIN & COMMERCIAL VEHICLE

Cut from inside or outside to reduce effort and removal times for large glasses.



Special blades remove backfill adhesive between glass edges and / or panels.

Safely remove adhesive bonded panels from buses and trains.

BTB support its tool with a range of general-purpose and application-specific blades, sold separately or as part of a kit.

E-TOOL™ The Battery Powered Auto Glass Cut-Out Tool

MADE IN AUSTRALIA

Designed and Built specifically

for Mobile Installations

E-TOOL™ Auto Glass Technician Kit

ETK12TEC 11 BLADE E-TOOL™ TECHNICIAN AUTO GLASS SPECIALIST KIT

This comprehensive Mobile E-Tool™ kit designed for the professional auto glass technician contains a wider range of mostly serrated blades, preferred for their faster cut-out times. Includes adjustable cutting depth control arms. Safely remove any bonded glass from any vehicle!

KIT CONTENTS:

Tool:
E-Tool™, 12V Battery in Carry Bag, Charger

Blades:
WK1-S, WK2-S, WK4-S, WK4R-S, WK4Z-S, WK4ZVR-S, WK24Z, WK24-S, WK27M, WK28M, WK6-M

Cutting Depth Control Arms:
WK11AW, WK11BW5, WK11CW, WK11EW, WK11FW

Accessories:
WK7, WK7L, WK8DSM, WK9, WK9B, WK11VEL, WK20, WKGA

Packaging:
Sturdy Plastic Carry Box

Training Package:
Intro & Training DVD, User Manual

E-TOOL™ Auto Glass Classic Kit

ETK12CLS 7 BLADE E-TOOL™ CLASSIC AUTO GLASS KIT

This Mobile E-Tool™ kit contains an assortment of serrated & non-serrated blades and adjustable cutting depth control arms to easily remove modern vehicle glasses, including laminated & encapsulated style glasses.

KIT CONTENTS:

Tool:
E-Tool™, 12V Battery in Carry Bag, Charger

Blades:
WK2-S, WK3, WK24Z-S, WK24ZR-S, WK27M, WK28M, WK6-M

Cutting Depth Control Arms:
WK11AW, WK11BW5, WK11CW, WK11FW

Accessories:
WK7, WK8DSM, WK9, WK9B, WK11VEL, WK20, WKGA

Packaging:
Sturdy Plastic Carry Box

Training Package:
Intro & Training DVD, User Manual

POWERED CUT - OUT TOOLS

E-TOOL™ Auto Glass Starter Kit

ETK12STR 4 BLADE E-TOOL™ STARTER INTRODUCTION KIT

This Mobile E-Tool™ kit is ideal for introducing mobile auto glass technicians to the BTB removal system. Contains a small selection of BTB's most used blades and adjustable cutting depth control arms for modern style vehicle glasses.

KIT CONTENTS:

Tool:
E-Tool™, 12V Battery in Carry Bag, Charger

Blades:
WK2-S, WK4Z-S, WK27M, WK28M

Cutting Depth Control Arms:
WK11BW5, WK11FW

Accessories :
WK7, WK8DSM, WK9, WK11VEL, WKGA

Packaging:
Sturdy Plastic Carry Box

Training Package:
Intro & Training DVD, User Manual

E-TOOL™ Power Tool with Battery & Charger

ETK1205 E-TOOL™ WITH BATTERY IN CARRY BAG AND 240V SMART CHARGER

For current users who already have blades or a kit who would like to go mobile. This is a basic kit with tool, battery and charger to go mobile.

KIT CONTENTS:

Tool:
E-Tool™, 12V Battery in Carry Bag, Charger

Accessories:
WKGA

Training Package:
Intro & Training DVD, User Manual

TIP

Every E-Tool™ comes with a detailed 16 page user manual which provides guidelines, hints and tips for most cut-out and glass types.

E-TOOL™ Power Tool Only

ETS1200 E-TOOL™ PLUS WKGA TOOL ACCESSORY KIT

BTB's 12 Volt tool E-Tool can be powered using our small battery carry bag **ETS12B5**, or any alternate 12 Volt system using our alligator clamp adaptor cord **ETSCEXAC**.

See the tool in action at btbtools.com/videos

Additional blades can be purchased separately and easily be added to any kit as required

NOTE !

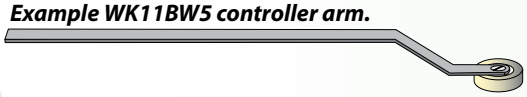
BLADE CUTTING DEPTH CONTROL ARMS

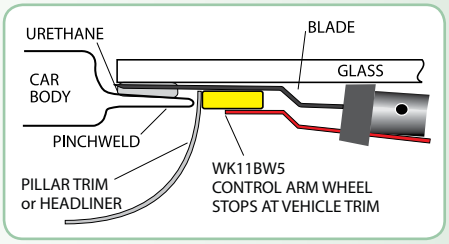
Smooth, precise cutting with BTB control arms.

PATENTED DESIGN

- Gives the technician confidence in avoiding damage to painted pinchweld, encapsulated moulding, vehicle body and cutting blades.
- Provides precise, adjustable blade cutting depth control.
- Provides a smooth cut, with wheels rolling easily along all surfaces.
- Provides stability and support for ORANGE "R" reverse blades when safely removing encapsulated glasses as blade cuts adhesive from pinchweld / body panel.

Example WK11BW5 controller arm.





The full range and further details are available in the BTB Removal System catalogue or online at btbtools.com

Air Tool Auto Glass Starter Kit

WKSTR 4 BLADE STARTER KIT

This air tool kit is ideal for introducing workshop-based auto glass technicians to the BTB auto glass removal system. Contains a small selection of BTB's most used blades and adjustable cutting depth control arms for modern style vehicle glasses.

KIT CONTENTS:

Tool:
WK10HD Heavy Duty Air Tool

Blades:
WK2-S, WK4Z-S, WK27M, WK28M

Cutting Depth Control Arms:
WK11BW5, WK11FW

Accessories:
WK7, WK8DSM, WK9, WK11VEL, WKGA

Packaging:
Vinyl Tool Bag

Training Package:
Intro & Training DVD, User Manual

Air Tool Auto Glass Classic Kit

WKCLS-BX 7 BLADE CLASSIC KIT

This kit contains an assortment of serrated & non-serrated blades and adjustable cutting depth control arms to easily remove modern vehicle glasses, including laminated & encapsulated style glasses.

KIT CONTENTS:

Tool:
WK10HD Heavy Duty Air Tool

Blades:
WK2-S, WK3, WK24Z-S, WK24ZR-S, WK27M, WK28M, WK6-M

Cutting Depth Control Arms:
WK11AW, WK11BW5, WK11CW, WK11FW

Accessories:
WK7, WK8DSM, WK9, WK9B, WK11VEL, WK20, WKGA

Packaging:
Sturdy Plastic Carry Box

Training Package:
Intro & Training DVD, User Manual

Air Tool Auto Glass Technician Kit

WKTEC-BX 11 BLADE TECHNICIAN KIT

This comprehensive kit is designed for the professional auto glass technician and contains a wider range of mostly serrated blades, preferred for their faster cut-out times. Includes adjustable cutting depth control arms. Safely remove any bonded glass from any vehicle!

"BTB Best Seller"

KIT CONTENTS:

Tool:
WK10HD Heavy Duty Air Tool

Blades:
WK1-S, WK2-S, WK4-S, WK4R-S, WK4Z-S, WK4ZVR-S, WK24Z, WK24-S, WK27M, WK28M, WK6-M

Packaging:
Sturdy Plastic Carry Box

Training Package:

Use WKBTR15-BX *for Bus, Truck, Rail, Mining & Heavy Machinery Removal Applications*

WK6 Non-Scratch Pinchweld Trimming Kit

WK6-SET 4 BLADE PINCHWELD TRIMMING SET

Remove excess adhesive easily and safely with BTB's exclusive pinchweld trimming set.

No more scratching or damaging paintwork.

"BTB Best Seller"

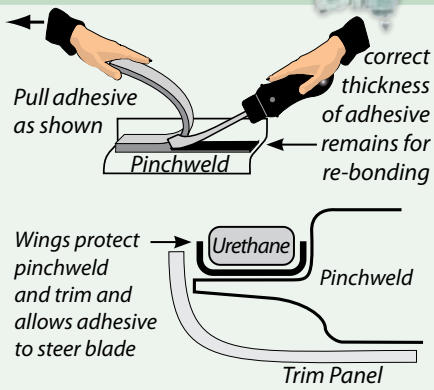
Intelligent design features of WK6 blades:

- *A special wing on each side of the blade to eliminate scratching of paint including vertical pinchweld walls.*
- *A special radiused grind which leaves the correct thickness of adhesive for re-bonding.*

KIT CONTENTS:

Blades: WK6-S, WK6-M, WK6-L, WK6-40
Accessories: *WK7, WKKEY*

HOW IT WORKS



TIP *Auto Body repairers can use these for body deadener, hemlock and seam seals.*

WK6 blades are excellent for removing urethane embedded with shattered tempered glass

BTB's WK6 blades can be used in the WK7 manual handles or power tools.

BTB Spade Cutting Blades

PATENTED DESIGN

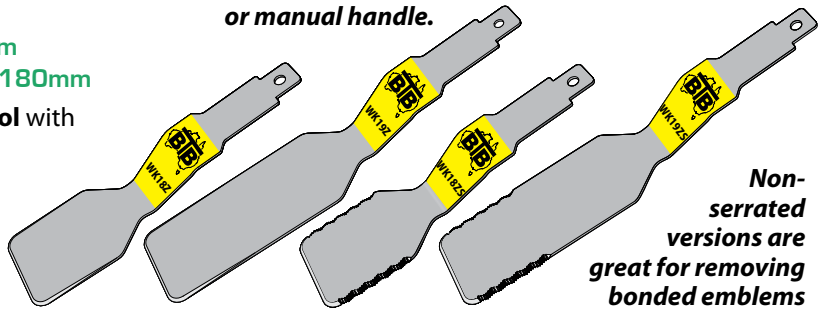
WK18Z BTB SPADE BLADE – 140mm
WK19Z BTB LONG SPADE BLADE – 180mm
WK18Z-S BTB SERRATED SPADE BLADE – 140mm
WK19Z-S BTB LONG SERRATED SPADE BLADE – 180mm

BTB's 'spade' blades provide **safe and superior control** with their **40mm wide blade and cutting edge** resting against the glass or panel surface.

Push them forward to cut with the wide face or **pull them backward** to cut with the serrated side.

The WK19 version is an extra 40mm longer providing even more reach for hard to get at urethane.

Use in BTB's E-Tool, Air Tool or manual handle.



Non-serrated versions are great for removing bonded emblems & mouldings.

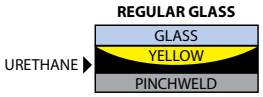
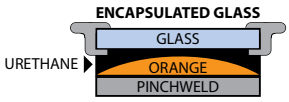
This table covers our most popular blades. See the BTB Removal System Catalogue for the full range.

BLADE COLOUR CODING



Yellow Blades are designed to cut with the flat side of the blade hugging the glass surface.



Orange reverse blades are designed to cut with the flat side of the blade hugging the pinchweld and saving encapsulated glasses.

CUTTING BELOW DASHBOARD & HARD TO REACH AREAS

Long *Straight Blades* easily reach hard and wide adhesive on any vehicle make or model.

CUTTING FROM INSIDE VEHICLES

Short *Z Blades* are used for precise cutting along top / sides of glasses and easily accessible adhesive areas. Use **Orange** blades for encapsulated glass removal. *Bent Blades* provide extra reach.

CUTTING FROM OUTSIDE VEHICLES

Powered Cold Knife Blades allow easy removal of glasses from outside the vehicle. They are safer and easier than manual cold / pull knives.

CURVED / CONTOURED GLASS REMOVAL

Flexible Blades cut while following the contour of curved glasses.

ENCAPSULATED GLASS REMOVAL

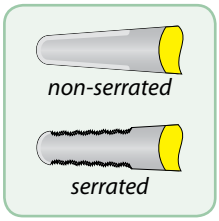
Orange *Reverse Blades* hug the pinchweld to remove and save undamaged encapsulated glasses for reuse.

PINCHWELD TRIMMING

WK6 Wing Profile

WK6 winged non-scratch *Pinchweld Scraper Blades* allow easy and safe removal of excess adhesive. These are uniquely sharpened with a special wing on each side which leaves 1 to 2mm thickness of adhesive for re-bonding and eliminates damage to paintwork and vertical pinchweld walls.

SERRATED vs NON-SERRATED



Standard *Non-Serrated* blades can be used in all glass and panel applications. Special *Serrated* blades provide a faster more aggressive cut for glass removal by more proficient users.

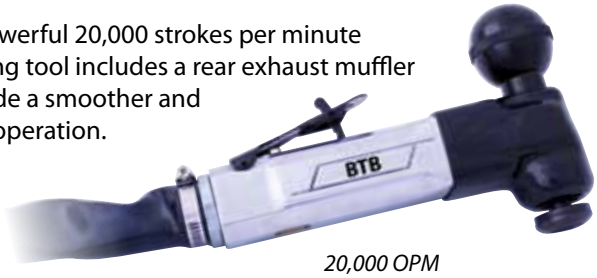
CUTTING DEPTH CONTROL

BTB's fully adjustable cutting depth control arms ensure precise cutting depth to avoid contacting painted panels.

BTB Oscillating Tool And Blades

WKOSHD BTB HEAVY DUTY AIR OSCILLATING TOOL

BTB's powerful 20,000 strokes per minute oscillating tool includes a rear exhaust muffler to provide a smoother and quieter operation.



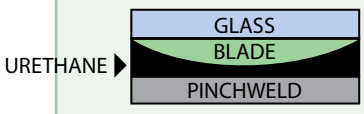
20,000 OPM

Robust design for the Auto Glazier

BTB's oscillating blades are thinner and cut easier than most standard profile oscillating blades. The blades follow the contour of the glass and allow the longer blades to flex slightly to ensure the blade is cutting against the glass surface minimising risk of damage to interior trims and fittings.

These oscillating blades should be used with their flat side on the glass surface.

REGULAR GLASS



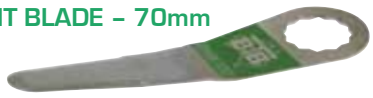
- *All oscillating blades will fit all standard 12 point hex electric and air powered oscillating tools.*
- *Recommended to use an approved lubrication or water to keep blades cool and to provide a smoother cutting action.*
- *Re-sharpen blades regularly for best results.*

OHB85 BTB BENT BLADE – 38mm

Total Length: 90mm

OHB120 BTB BENT BLADE – 70mm

Total Length: 120mm



OHB150 BTB STRAIGHT BLADE – 120mm

Total Length: 150mm

- For regular glass cut-outs.
- Flip the blade over to use for encapsulated glass removals.

OHBSET BTB OSCILLATING BLADE SET

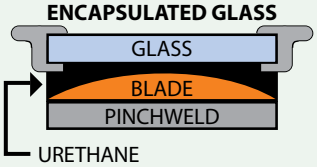
Set of 3 BTB blades

- OHB85
- OHB120
- OHB150

Reverse bend blades are commonly used for safe removal of encapsulated glass, designed to cut away from the glass and against the pinchweld.

These oscillating blades should be used with their flat side on the pinchweld.

ENCAPSULATED GLASS



OHBR85 BTB REVERSE BEND OSCILLATING BLADE – 38mm

51844 DOUBLE RADIUS OSCILLATING BLADE
Total Length: 92mm

51845 DOUBLE RADIUS OSCILLATING BLADE
Total Length: 125mm

Some manufacturers of oscillating tools recommend that their tools be used with a blade that is sharpened on both sides. They believe it is easier for the blade to cut through the centre of the urethane if it does not rub against the glass. For these users, we offer these high-quality stainless steel blades.

Oscillating Hook Blades for External Removals

Equalizer

OHBH18 HOOK BLADE – 18mm

51857 HOOK BLADE – 38mm

51858 HOOK BLADE – 63mm

All oscillating blades can be used with BTB's WKOSHD Oscillating Tool (page 11)

NOTE !

Oscillating External Power Cold Knife Blades

Equalizer

Equalizer PCK blades are made of hardened carbon steel and are bent the same way a regular cold knife blade is bent. Used in the same action as a manual cold knife with the benefit of a power oscillating tool.

51847 POWER COLD KNIFE BLADE – 19mm

51848 POWER COLD KNIFE BLADE – 25mm

51849 POWER COLD KNIFE BLADE – 38mm

Oscillating Round Saw Blades

These blades are ideal for cutting body panel sheet metal up to 1mm, hard plastic sections and fibre glass.

- No flying sparks
- Precise and straight cutting lines only 0.5mm wide
- Plunge into the material at any point

OHBR63 OSCILLATING ROUND SAW BLADE – Ø 63mm

OHBR80 OSCILLATING ROUND SAW BLADE – Ø 80mm

Fits all standard oscillating tools including BTB's Heavy Duty Air Oscillating Tool **WKOSHD**.

Viper™ Ratcheting Wire Removal System

Equalizer

VIP1124 VIPER WIRE REMOVAL SYSTEM

The Viper™ is a ratcheting wire removal system designed for Small Quarter Glass Removals, but can also be used on Windscreens and Back Glasses. We believe it is the best wire system on the market.

This compact, simple to use, robust wire tool provides a solution to safely remove close fitting vehicle glass.

New Product

KIT CONTENTS

VIPER™ Assembly including Socket and Ratchet,
1 - Clear Protect-A-Dash,
1 - T-Handle Centerstart,
1 - Mini Anchor Cup,
1 - 22 Mtr Roll of Squire Wire,
1 - Training DVD.

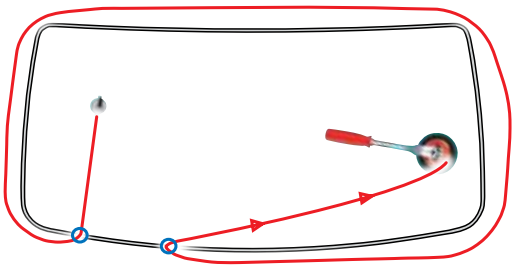
All packaged in a foam-lined case.

- Small, light, and easy to manoeuvre.
- Provides a simple and effective solution with a small outlay and rapid return on investment.
- Cuts through the toughest urethane with little resistance.
- The omni-ratchet allows manoeuvring in any direction when working in confined and awkward positions inside a vehicle.
- Professional repairers are looking for convenience and better control of their workflow.

Small enough yet strong enough for all glasses.

VIPER

The VIPER is good for
Windscreens or Back Glasses too!



Why a Wire Cut-Out Tool?

Modern vehicle glasses have tighter tolerances between the glass and the body. It is becoming quite impossible on some vehicles to avoid damage to the paintwork when removing the glass. The VIPER saves valuable time by avoiding scratches to the paintwork which can result in expensive repairs or the formation of rust. Wire removal tools reduce physical strain on technician's body.

(1 revolution cuts 76mm)

MAC1125 MINI ANCHOR

New Product

The compact size of the Mini Anchor allows the wire to remain closer to the glass surface, fit in tight spots and on small quarter glasses during cut-outs.

The VIPER™ can be used with RipCord™ Fibre Cut - Out Line, Braided Wire and Square Cut-Out Wire

See the tool in action at btbtools.com/videos

Wire Dispensers

WDD167 VENOM™ WIRE DISPENSING DEVICE

Includes one roll of **SWL165** *Squire 50 Mtr Cut-Out Wire (as shown)*

Square Cut-Out Wire

SSW508 SQUIRE™ SQUARE CUT-OUT WIRE – 22 Mtr
SWL165 SQUIRE™ SQUARE CUT-OUT WIRE – 50 Mtr

The cutting ability of square wire is better than traditional round or braided wire. Try a roll and you will be amazed.

- Made of high tensile strength stainless steel
- Supplied in a hand plastic dispenser

SSW508

SWL165

square

When square wire is pulled, pressure is put against the flat side. It then takes the path of least resistance, rolls over and cuts with the V-corner of the wire.

WK320 SQUARE CUT - OUT WIRE – 22 Mtr

Stainless steel square wire outperforms traditional round wire and is designed to cut hard urethanes. It has become very popular as it is not as aggressive against paintwork and mouldings.

WK320

Braided Cut-Out Wire

WK300 GOLD BRAIDED CUT - OUT WIRE – 22 Mtr

This wire has been specifically designed to cut urethane. It has 3 super strong stainless steel wires braided to form one wire to create a serrated cutting action.

TWF164 TIGHTWIRE™ BRAIDED CUT - OUT WIRE – 50 Mtr

Equalizer

TightWire™ is specially designed to cut urethane. An entire windshield can be cut-out with one piece of TightWire™ without breaking. TightWire™ is composed of three super-strong, stainless steel wires braided to form one wire, then anodized to a smooth finish.

- Supplied in a hand plastic dispenser

Made in the USA

Fibre Cut-Out Line

Equalizer

RC300 RIPCORD™ FIBRE AUTO GLASS REMOVAL LINE - 91 Mtr
RC25 RIPCORD™ FIBRE AUTO GLASS REMOVAL LINE - 7.6 Mtr

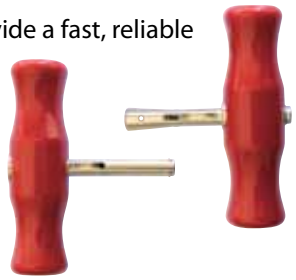
RipCord™ Fibre Auto Glass Removal Line has been engineered and developed to provide durability, strength, performance, and safety to enhance the cutting results of most auto glass wire cutting systems.

- Do multiple jobs with one length,
- Won't puncture or scratch surfaces,
- No damage to the pinchweld or windshield mouldings,
- Use with most Wire Removal Tools,
- If it breaks, it won't retract, spin or coil the way steel and braided wires do.

Wire Removal Accessories

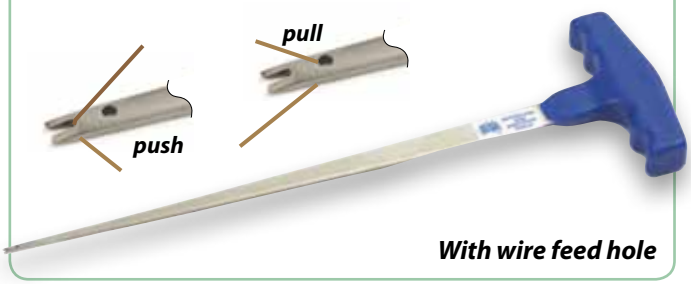
WK310 BTB SAFETY WIRE CUT- OUT HANDLES – Pair

These safety wire handles provide a fast, reliable and comfortable grip for the operator. The protection tube is specifically designed to ensure the operator's hands are not exposed to the cutting wire and remain free from injury.



WK193 LONG REACH WIRE STARTER WITH WIRE FEED HOLE

BTB's long reach wire starter comes with a wire feed hole. The tool is inserted underneath the windscreen and below the dashboard. The technician can choose to push the wire from inside the vehicle through the urethane to the outside, or push the wire starter through the urethane then hook the wire through the hole and pull it back inside. The tool now incorporates a sturdy plastic handle to maximise pushing / pulling force.



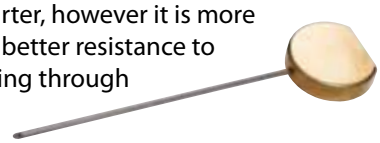
With wire feed hole

WK190 NEEDLE WIRE STARTER

Insert the hollow tube wire starter into a small bead of urethane and out the outer side. This will allow the cutting wire to simply push through the hollow stainless steel tube ready to attach to your preferred wire removal system.

WSH120 HEAVY DUTY NEEDLE WIRE STARTER – 120mm LONG

This heavy duty wire starter functions in the same way as the **WK190** wire starter, however it is more robust and provides better resistance to bending when pushing through harder urethanes.



WDP740 WIRE CUT - OUT DASH PROTECTORS – SET OF 2

These two sturdy dash & trim protectors have been specifically designed to closely fit and provide ideal protection when using cutting wire below the dash board, A-Pillar interior trims and against the roof and headliner. The protectors have a bevelled edge to assist with inserting into the cutting area and to avoid the protector from slipping.

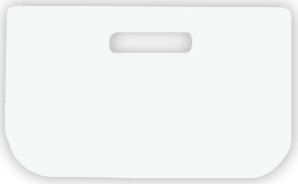
CU1077 PROTECT-A-DASH™

Protect-A-Dash™ is made of a CLEAR heavy-duty, yet flexible plastic which allows you to see what you are working on. A tool or wire will slide easily across the dash protector. It is rounded at the bottom to fit down into the corners of curved dashes.

405mm x 240mm



Equalizer

New Product

HP564 CLEAR HEADLINER PROTECTOR

The headliner protector gives you the ability to protect the A-Pillar trim and the headliner while using wire cut out tools.

Made of a clear heavy-duty flexible plastic.

Cold Knives & Accessories

WK370 BTB COLD KNIFE

The most common glass removal tool to cut and separate the glass away from the urethane. Easy to grip aluminium pull handle with steel cable and strong stainless connection.

Robust design

WK370K BTB COLD KNIFE WITH PLASTIC COVER KIT

The plastic cover kit provides a more comfortable grip for the technician and gives added protection for the vehicle if accidentally dropped on the paintwork. The pull cable is covered with a plastic protective sleeve to help avoid scratching paintwork.

SCK065 BTB SHORT HANDLE COLD KNIFE

The short handle design cold knife allows you to access urethane under bonnets & sun visors on some vehicles.

WK370NCK COLD KNIFE REPLACEMENT PLASTIC COVER KIT

Fits **WK370** & **WK370K** Cold Knives.

3008K THIN ULTRAWIZ QUICK RELEASE LEVER COLD KNIFE

The ONLY fully adjustable Quick Release Cold Knives on the Market

Now with added A-Pillar / Panel Clearance

New Design

OLD DESIGN

- Single lever action allows unlimited blade positions
- Close the lever with a simple squeeze and you're ready to go
- Fits all sizes of UltraWiz range Cold Knife Blades
- Comfortable ergonomic oval handle design
- Blade changes and adjustments can be made without the use of tools
- Provides clearance against the A-Pillar
- The wide handle quick release cold knife is preferred by operators with larger hands

3007K WIDE ULTRAWIZ QUICK RELEASE LEVER COLD KNIFE

Regular replacement of the pull cable on all cold knives is recommended

NOTE!

WK370BNS BOLT ASSEMBLY

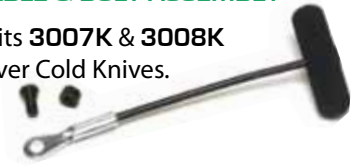
Nut spacer assembly for **WK370**, **WK370K** & **SCK065**.

WK380 REPLACEMENT CABLE

For **WK370**, **WK370K** & **SCK065** BTB Cold Knives.

3007RK REPLACEMENT PULL CABLE & BOLT ASSEMBLY

Suits **3007K** & **3008K** Lever Cold Knives.



Cold Knife Replacement Blades

UltraWiz®

UltraWiz® blades are known for being the most reliable, sharp and toughest blade in the industry. Their narrow profile cutting tip provides sharper cutting action, making it easier and faster for technicians to remove bonded glass.

1000M ULTRAWIZ 10mm (3/8") STARTER COLD KNIFE BLADES – Pkt 5

These pre-cut starter blades are specifically designed to pre-cut the urethane / sealant prior to using the longer UltraWiz® blades.

1001M ULTRAWIZ 19mm (3/4") COLD KNIFE BLADES – Pkt 10

Use to pre-cut wider beads and fully cut narrow urethane beads. Also good for rear glass cut-outs as the shorter blade is more likely to avoid cutting heater terminals.

1002M ULTRAWIZ 25mm (1") COLD KNIFE BLADES – Pkt 10

The 25mm cutting length is the most popular blade we supply in the UltraWiz® range which reaches most urethane beads.

1003M ULTRAWIZ 32mm (1¼") EXTENDED COLD KNIFE BLADES – Pkt 5

The 32mm cutting tip with extended length shank provides more clearance between the blade cutting tip and the bottom of the cold knife where standard blades do not provide enough clearance. Great for removing late model vehicle glass where the windscreen is set lower than the A-Pillar.

Works best when precut with* 1000M *or* 1001M *blades

1004M LONG ULTRAWIZ 38mm (1½") COLD KNIFE BLADES – Pkt 5

Use this blade for wide urethane beads. Pre-cutting with a standard blade is recommended.

Works best when precut with* 1000M *or* 1001M *blades

UltraThin® Serrated Blades NEW

UltraWiz®

Note *This range replaces UltraWiz 6901M, 6902M and 6904M blades.*

Thin, Strong AND Radius Serrated.

The small leading edge points of this blade pierce the urethane for an easier pull during cutting.

The new radius grind provides less cutting resistance than any other blade in the industry.

The centre rib adds strength to the thin serrated edge.

6991M ULTRAWIZ 19mm (3/4") RADIUS SERRATED COLD KNIFE BLADES – Pkt 5

New Product

6992M ULTRAWIZ 25mm (1") RADIUS SERRATED COLD KNIFE BLADES – Pkt 5

6994M ULTRAWIZ 38mm (1 ½") RADIUS SERRATED COLD KNIFE BLADES – Pkt 5

UltraWiz® Stainless Steel Blades

UltraWiz®

Stainless steel blades offer a long lasting high quality cutting edge with superior strength and sharpness. Use stainless steel blades to spend less time sharpening blades and more time servicing your customers.

7001M ULTRAWIZ 19mm (3/4") STAINLESS STEEL BLADES – Pkt 5

7002M ULTRAWIZ 25mm (1") STAINLESS STEEL BLADES – Pkt 5

Coated UltraThin® Paint Protector Blades

UltraWiz®

Ideal for cutting out windscreens and back glasses that have limited clearance on exposed / bare edged glass.

The durable coating is soft yet long lasting. It protects automotive paint from scratches and damage.

40% thinner!
Ideal for applications that have very limited clearance.

Exposed Edge Glass

Protect Paintwork

51C1M 19mm (3/4") PROTECTOR BLADES – Pkt 5

51C2M 25mm (1") PROTECTOR BLADES – Pkt 5

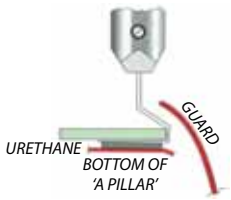
51C3M 32mm (1 ¼") PROTECTOR BLADES - Pkt 5

51C4M 38mm (1½") PROTECTOR BLADES – Pkt 5

Special Application Cold Knife Blades

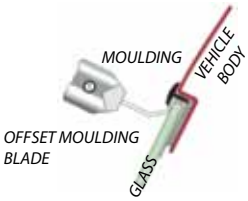
UltraWiz®

Offset Clearance blades provide additional clearance for the cold knife and blade to operate down the A-Pillar, preventing damage to the vehicle paintwork, guard and bonnet.



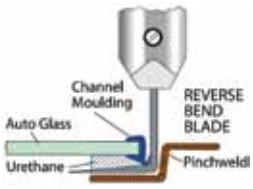
1012M OFFSET CLEARANCE BLADE 25mm (1") – Pkt 5

Offset Moulding blades allow the technician to separate the glass and moulding from the bonding adhesive.



1022M OFFSET MOULDING BLADE 25mm (1") – Pkt 5

Reverse Bend blades cut down and away from the glass, where a normal blade cuts up toward the glass. They allow cutting without digging into a glass with an encapsulation or underside moulding, and keep sharp edges away from the vertical wall of the pinchweld.



5201M ULTRATHIN 19mm REVERSE BEND BLADE – Pkt 5

5202M ULTRATHIN 25mm REVERSE BEND BLADE – Pkt 5

Interior Removal blades are designed to cut from inside the vehicle against the pinchweld, and underneath the encapsulated moulding. The blade angle helps regulate the correct cutting depth required.

Great for encapsulated glass removals

5500M ULTRAWIZ INTERIOR 13mm (1/2") REMOVAL BLADE – Pkt 5

5501M ULTRAWIZ INTERIOR 19mm (3/4") REMOVAL BLADE – Pkt 5

BTB Manual Cutting Blades

BTB's selection of high quality cutting blades can be used with BTB manual handles to assist with removing any glass or mouldings. The serrated versions provide a more aggressive cutting action.

WK1X EXTRA LONG FLAT BLADE – 370mm

WK1 LONG FLAT BLADE – 300mm
WK1-S SERRATED LONG FLAT BLADE – 300mm

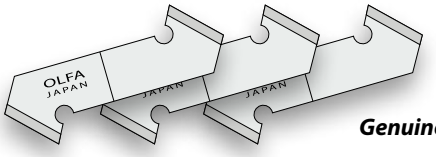
Laminate Cutter Knives & Blades

PCL OLFA HEAVY DUTY PLASTIC / LAMINATE CUTTER

This cutter is designed to produce a very fine score line needed to precisely break plastic, acrylic and laminates. Includes two spare blades in the handle.

Genuine Olfa®

PB800 OLFA HEAVY DUTY PLASTIC / LAMINATE CUTTER BLADES – Pkt 3



Genuine Olfa®

For the **PCL** Knife.

Trimming Knives & Blades

AP4140 FIXED TRIMMING KNIFE

For those installers who prefer a compact fixed blade trimming knife.

Uses* AP4160 *replacement blades

3033 QUICK-LOC FOLDING KNIFE

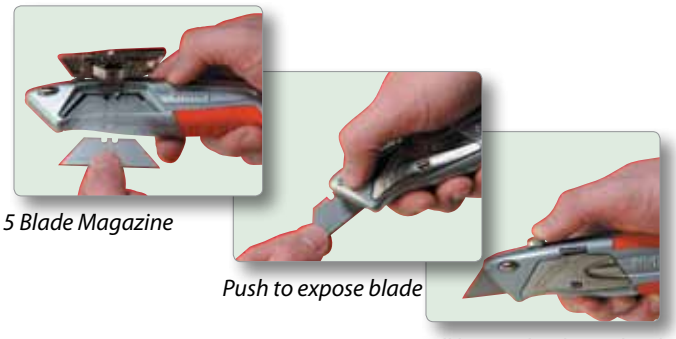
- Comfortable rubber grip
- Belt clip on back
- Secure blade locking knife
- Safety cover on blade

Uses* AP4160 *replacement blades

AP4145 AUTO LOADING TRIMMING KNIFE

Reloads blades in seconds, minimising downtime and ensuring that you have a sharp blade ready to go at all times.

Heavy Duty all Metal Construction body with rubber grip handle.



5 Blade Magazine

Push to expose blade

Pull button back to reload

Uses* AP4160 *replacement blades

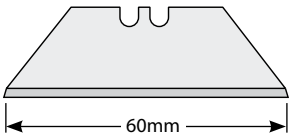
AP4152 RHINO GRIP RETRACTABLE KNIFE

Ergonomic rubber grip handle with Quick-Change blade mechanism.

Uses* AP4160 *replacement blades

AP4160 HEAVY DUTY TRIMMING KNIFE BLADES – Pkt 100

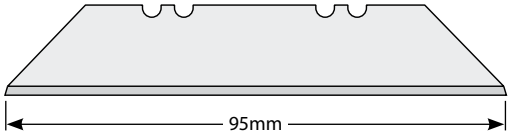
These blades are very robust for the toughest jobs. Fits all standard Stanley and Trimming knives.



Supplied in a handy dispenser.

AP4162 EXTRA LONG TRIMMING KNIFE BLADES – Pkt 10

These extended length trimming blades provide extra reach when using a long knife allowing the blade to penetrate deeper into the urethane bead.

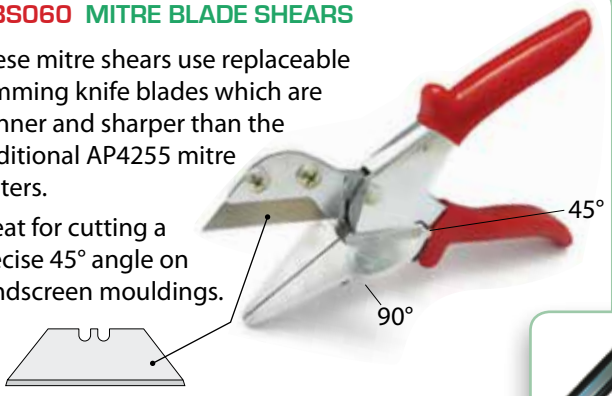


Mitre Shears & Moulding Adhesive

MBS060 MITRE BLADE SHEARS

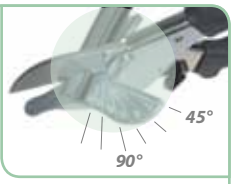
These mitre shears use replaceable trimming knife blades which are thinner and sharper than the traditional AP4255 mitre cutters.

Great for cutting a precise 45° angle on windscreen mouldings.



Uses* AP4160 *replacement blades

AP4255 MITRE CUTTERS



Many technicians now use universal glass mouldings on most glass replacements as it has become cheaper than using original mouldings. When the moulding requires an angle cut, these mitre cutters help you achieve an accurate cut for a professional finish. Also ideal for cutting rubber, plastic, body side mouldings or wood.

Mitre cut mouldings for professional mitre join

BST060 HEAVY DUTY BLADE SHEARS

The heavy-duty blade shears give you a more precise cut with softer mouldings and components. Change to a brand new trimming blade by loosening 2 screws.

Uses* AP4160 *replacement blades

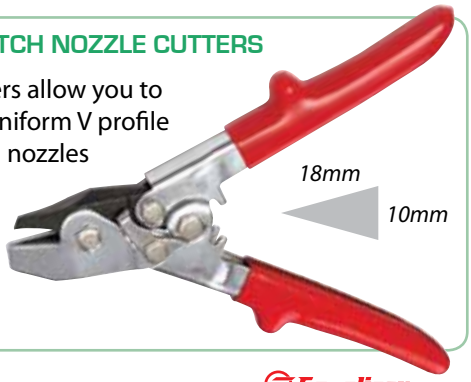
29701 BLACK PANTHER SNIPS – 185mm

- Hi-tensile stainless steel serrated edge blades.
- High quality comfort grip handle.
- Multi-purpose use for thin wire, rubber and other light gauge materials.
- Spring loaded.

Serrated Blade

VNC181 V-NOTCH NOZZLE CUTTERS

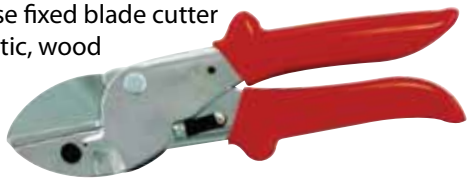
The V-Notch Pliers allow you to precisely cut a uniform V profile in your standard nozzles or modify your current nozzle.



Equalizer®

AP4258 UNIVERSAL CUTTERS

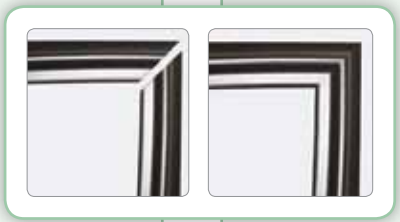
General purpose fixed blade cutter for rubber, plastic, wood and sealant nozzles.



Equalizer®

BMG466 BLACK MOULDING ADHESIVE – 15ml

A super-strong, weather-resistant adhesive that will glue the moulding together and maintain a strong bond through any type of weather. It only takes a small drop to glue the moulding together, so this bottle has enough adhesive for hundreds of mouldings.



DRIES MATT BLACK

DRIES CLEAR

Store in cool place

UMA297 CLEAR MOULDING ADHESIVE – 15ml

Equalizer® MouldingMaker™ Adhesive is a permanent, colourless adhesive specially formulated to join mouldings.

Lil Buddy Pro Glass Lifting Device

lil buddy

See the tool in action at btbtools.com/videos

NEW Lil-Buddy™ PRO1 HEAVY DUTY Model

The Lil-Buddy™ PRO1 **Heavy Duty** *auto glass tool provides a single technician the ability to extract and replace windshields and back glass quickly and safely on most vehicles, heavy duty auto glass included!*

MADE IN USA

LBP1HD LIL BUDDY PRO1 HEAVY DUTY MOBILE GLASS LIFTING DEVICE

The exclusive patented design enables you to lower the windscreen into the urethane without the need to remove either suction cups from the glass.

Features:

- Now includes a heavy duty sliding rod to handle the weight of heavy windshields and back-glass such as commercial trucks, vans, and recreational vehicles.
- Built with stainless steel and heavy duty plastics for a lifetime of use with proper care.
- Now features a clearly defined measuring system.

THE NEW HEAVY DUTY VERSION REQUIRES LESS MAINTENANCE, MAKING IT THE PERFECT CHOICE FOR TECHNICIANS.

Vacuum Suction Cups

ALL OF THESE CUPS ARE DESIGNED FOR CURVED OR FLAT GLASS.

WK420 PUMP ACTION VACUUM LIFTER

Designed for cars, buses, trains and the flat glass industry.

- Ideal for curved or flat surfaces
- A red safety band appears on the handle to warn you of any pressure loss.

200mm Diameter Cup
Safe Working Load 56kg

WK420SK SERVICE KIT FOR VACUUM LIFTER WK420

Contents:

Vacuum Suction Cups cont

DSC148 XTRA-GRIP DOUBLE SUCTION CUP – 148mm

Larger diameter suction cups with concave / flexible rubber flanges give these lifters a more secure grip on curved or flat glass surfaces.

"BTB Best Seller"

Safe Working Load 30kg

DSC148K XTRA-GRIP DOUBLE SUCTION CUP KIT (2 x DSC148)

Lifting larger windscreen glasses is made easier with a pair of these Xtra-Grip double suction cups.

Designed for lifting Automotive glass

WK400 DOUBLE SWIVEL SUCTION CUP

Some fitters still prefer the traditional double swivel suction cup for lifting, fitting and positioning of automotive glass. These have a hard plastic body and two 115mm swivel head cups.

Supplied with protective covers

Safe Working Load 30kg

XSG148 XTRA SOFT GRIP DOUBLE SUCTION CUP – 148mm

With extra soft rubber cups.

WK400AL ALUMINIUM DOUBLE SWIVEL SUCTION CUP - 123mm

The aluminium swivel suction cup is more robust than plastic housing versions, ideal in applications where cups are more prone to be dropped and damaged.

Safe Working Load 40kg

SAC123 ALUMINIUM SINGLE SUCTION CUP

The handle where there is no handle! Designed for attaching to glass, giving you greater control when positioning glass. These cups attach or release in seconds. They provide a strong grip on small glasses.

Supplied with a protective cover

Safe Working Load 15kg

Squeeze Handles To Create Vacuum On Glass

WH9601 G-HANDLE SUCTION CUP – 75mm

Safe Working Load 10kg

The G-Handle design suction cup has a very flexible rubber pad that can be applied quickly to any smooth surface. Great for lifting small glasses.

GHS100 G-HANDLE SUCTION CUP – 100mm

Safe Working Load 15kg

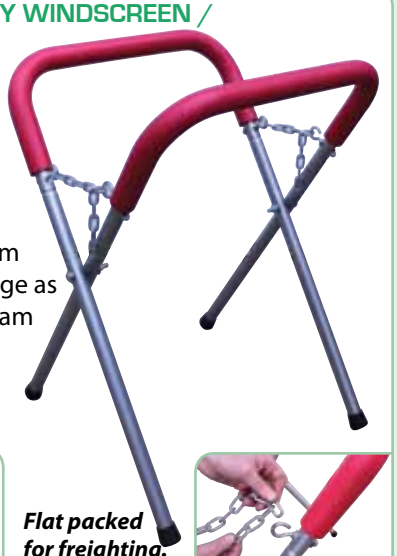
Glass Support Stands

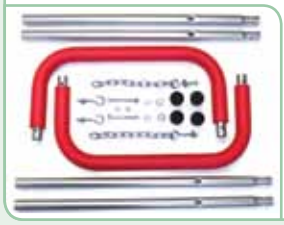
AP4300 STANDARD WORK TABLE

- This foldable sturdy work table is used for holding automotive glasses, panels, bumper bars etc. Replacement foam sleeves are also available. See below.

HDS060 HEAVY DUTY WINDSCREEN / PANEL STAND

- Robust design gives more stable support for glass and vehicle panels.
- Covered with a medium density foam which will not damage as easily as standard foam and provides better grip on automotive glass / panels.





Flat packed for freighting. Quickly and easily assembly.

fully adjustable

TENGTOOLS®

KINCROME PROFESSIONAL QUALITY TOOLS

BTB are authorised agents for KINCROME, TENG and other leading brands. A full range of tool kits, tool boxes and accessories are available.

We also build customised tool kits for the Auto Glass and Body Shop industry.

Rubber Hook & Pick Tools

AP6000 RUBBER HOOK TOOL

The essential tool for all technicians. Specially designed hook end for pulling rubber gaskets over the pinchweld or glass during installation of the window. Great universal tool for many automotive applications.

Anti-slip rubber grip

AP6001 LONG RUBBER HOOK TOOL

An extended version of the AP6000 hook tool with a shaft length of 190mm. Great for reaching below dash boards on Bus & Coach and Truck windows and for general use in the automotive industry.

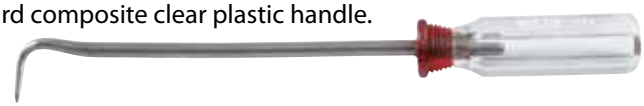
Anti-slip rubber grip

WT54407 WILDE RUBBER HOOK TOOL

Hard composite clear plastic handle.

WT54412 WILDE LONG RUBBER HOOK TOOL

Hard composite clear plastic handle.



AP6010 MINI HOOK & PICK SET

4 Piece Set for general use to assist in removing small clips, screw covers and trim fasteners.

AP6005 LONG STRAIGHT HOOK TOOL

Equalizer

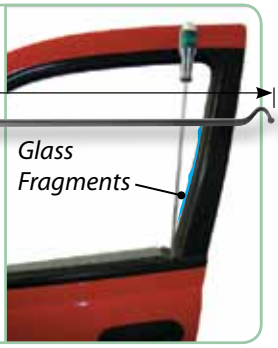
The long straight hook tool provides longer reach with a shaft length of 200mm and a 50mm hook tip. The hook tip is only bent once so it will work in either direction.

Channel Cleaners & Door Belt Removers

AP6050 LONG GLASS CHANNEL CLEANER

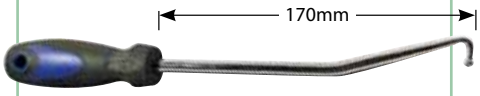
Anti-slip rubber grip

Forget using a screwdriver and risking damaging the rubber! This tool reaches right down the door window frame to remove broken glass stuck in the door bailey channel.



AP6052 SHORT GLASS CHANNEL CLEANER

Similar tool to the AP6050 but with a shorter shaft.

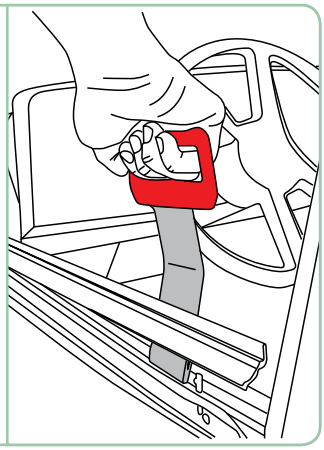


AP6135 DOOR BELT MOULDING REMOVER

Slide this powder coated tool downward between window exterior and door. When the "U" section is below the belt mould, pull the tool upward underneath the back edge to engage the door belt mould to remove it.

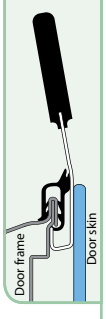
- Reduces removal downtime
- Avoids bending belt moulds and breaking retainer clips

Quickly Removes Door Belt Mouldings



DWR030 SLIMLINE DOOR BELT MOULDING REMOVER

The slimline remover is narrower than the **AP6135** which makes it easier to insert between the glass and belt mould on some vehicles.



Locking Strip & Rubber Gasket Tools

AP6030 MULTI LOCKING STRIP TOOL

Supplied with four different sized heads that fit most locking strip applications. By swivelling the locking strip head on a 90° angle to the handle the technician can insert the locking strip without removing the sun visor.

SUITS: 7mm to 16mm locking strips.

Equalizer

PA1348 EQUALIZER LOCKING STRIP TOOL

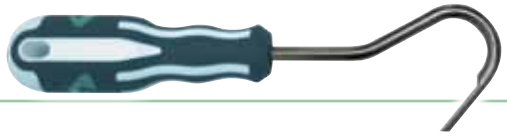
This Locking Strip Tool has 6 different tips ranging in size from 10mm to 19mm.

AP6020 SELF LOCKING RUBBER TOOL

Designed to use on self locking rubber gaskets to seal the locking channel. The ball point tip helps to prevent the tip slipping out of the rubber.

AP6060 RUBBER GASKET CLEANER

When you get a tempered / zone toughened glass broken in a rubber gasket window, use this tool to remove the shattered glass stuck in the rubber gasket.



AP6085 ROPE INSERT TOOL

This tool is designed to assist with inserting the rope into the windscreen rubber groove ready for easy re-installation of the glass.

Equalizer

RT752 EQUALIZER ROPE INSERT TOOL

Comes with a sturdy rope that will reach around the largest rubber gasket.

Made in the USA

BMC600 LOCKING STRIP TOOL WITH INTERCHANGEABLE WIRES

- Includes 6 heads ranging from 10mm to 19mm.
- Compact ribbed rubber handle for good grip and comfort.

AP3210 T-HEAD LOCKING STRIP TOOL

Fits 2 size locking strips.

LARGE: 15mm

SMALL: 12mm

AP6021 SELF LOCKING RUBBER INSERT TOOL

This self locking rubber insert tool is commonly used on construction vehicles and truck windows to insert the locking rubber flap into the retaining side of the locking rubber.

Anti-slip rubber grip

Equalizer

BDA251 FOOTLOOSE RUBBER GASKET RELEASE TOOL

Footloose

Many vehicles have large, rubber-set windscreens which are difficult to push against while releasing the rubber gasket. With the Footloose™ it is easy to push out on the glass with one hand while you release the rubber gasket with the other hand.

Windscreen Moulding Removal & Installer Tools

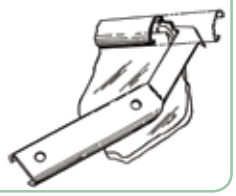
AP6160 JIGGLER MOULDING CLIP TOOL

Double ended moulding clip release tool.

Equalizer

AP6150 MOULDING RELEASE TOOL

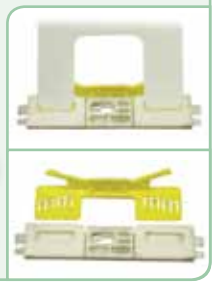
This tool releases the moulding from the clip. Heat-treated, high carbon steel.



Equalizer

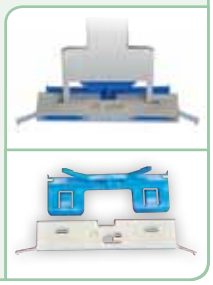
MCR633 CLIPFORK™ HONDA CLIP REMOVER

The ClipFork™ Honda Windscreen Clip Remover pushes all the locking tabs down at the same time and allows locking clips to slide out without each one catching.



JLT656 HONDA CLIP REMOVAL TOOL

This tool is designed to work on a wide range of Honda vehicles with smaller or narrower openings than some of the older clips. Its thin design allows it to work on the Accord (2003 and up), the Civic (2001 and up) and the Odyssey.



Made from hardened stainless steel.

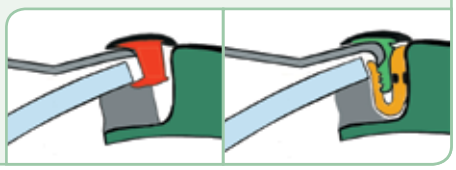
Equalizer

TCR370 TOYOTA, HONDA, NISSAN, LEXUS & SUBARU CLIP REMOVER

Some clips press into a series of teeth that hold the clip in place. This clip remover can pry the clip up lightly to disengage the teeth and release the clip. To remove Toyota clips, push the double pronged end of the tool toward the pinchweld and push the tool handle downward towards the glass, prying the clip up.

MADE IN USA

Toyota Clips *Other Clips*



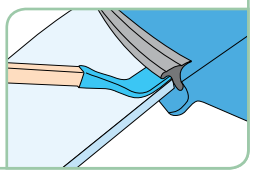
AP6165 MOULDING INSTALLER / ROLLER

The nylon roller on this tool has the contoured shape of the mould to evenly roll the flush mounted mouldings in place to achieve a consistent smooth appearance.

Anti-slip rubber grip

AP6120 UNIVERSAL MOULD REMOVAL TOOL

Designed to remove windscreen mouldings from the glass edge. The removal tool has a soft protective sleeve fitted to the lever end. Care must be taken when leveraging against the glass!



JSC1098 JEEP SPACER CLIP – Pkt 6

For Jeep Wranglers (2007-present) with exposed edge glass, this clip is used to get the proper gap alignment between the glass and the body (not a permanent fixture on the vehicle) while the urethane cures. To remove, simply turn the clip 90° and pull out.

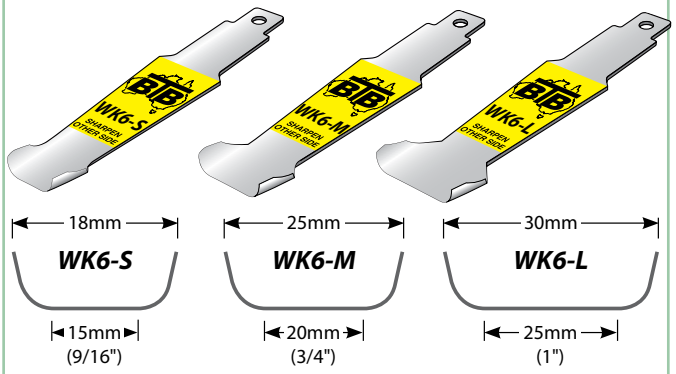
BTB is the Exclusive Australian Distributor for Equalizer®

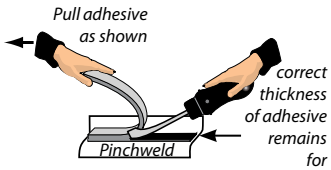
If we don't stock it we can order it in for you.

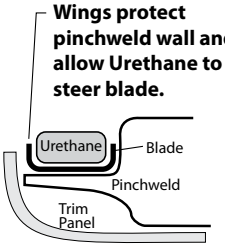
Pinchweld Scraper Preparation Tools

WK6-S WINGED NON-SCRATCH BLADE – 15mm
WK6-M WINGED NON-SCRATCH BLADE – 20mm
WK6-L WINGED NON-SCRATCH BLADE – 25mm

BTB Non-Scratch Blades avoid damage to paint when removing excess urethane and are excellent for removing urethane embedded with shattered glass!



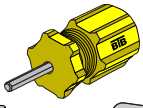




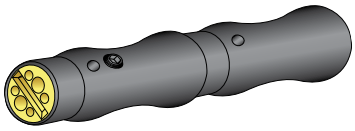
Use with* WK7 *or* WK7L *handle.

WK6-SET PINCHWELD TRIMMING SET

This comprehensive pinchweld trimming set includes the WK6-S, WK6-M, WK6-L and WK6-40 blades along with the WK7 manual handle and chuck key.



WK7L DOUBLE MANUAL BLADE HANDLE



WK6-M in WK7 handle

WK7 MANUAL BLADE HANDLE

Handles fit all BTB blades.

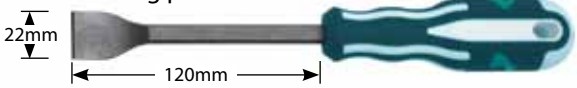
WK6-40 WIDE FLAT PINCHWELD TRIMMING BLADE – 40mm

Used for removing wide beads of sealant eg. Bus & Coach Vehicles or below dashboards. Auto Body repairers can also use these blades for quick and safe removal of body deadener, hemlock seals and seam seals.

Use with* WK7 *or* WK7L *handle.

AP6100 PINCHWELD SCRAPER

The pinchweld scraper is a traditional tool for removing the old sealant / urethane from the pinchweld before the re-bonding process.



Anti-slip rubber grip

AP6101 LONG PINCHWELD SCRAPER

Some technicians prefer the long pinchweld scraper to provide more clearance and better control by using two hands. This is also a handy tool for cleaning off old head gaskets.

Anti-slip rubber grip

AP6105 RED DEVIL SCRAPER

Quality 38mm stiff scraper to clean up and remove old sealant from the pinchweld.

Mirror & Glass Tools

Equalizer®

MB743 MIRROR BRACKET WRENCH – TORX®

Has a T15 Torx® for rearview mirrors on one end and a T20 Torx® on the other end. Comes with a pocket clip.

MB744 MIRROR HEX WRENCH

Two-sided hex wrench fits many vehicle rearview mirrors.

MBR600 MIRROR BRACKET WRENCH PHILLIPS / TORX®

Use this handy tool with Phillips head screws, or flip it over and use the T15 Torx® used on many domestic models.

FMR482 REARVIEW MIRROR REMOVAL TOOL

Simply slide the blade between the mirror bracket and the mirror to release.

320 MIRROR GLUE

New Product

- Mirror Adhesive Primer & Adhesive pack
- Mirror Adhesive Bonds in 10-20 seconds.
- Approximately 200 mirror applications

GM602 MIRROR BRACKET LEVER WRENCH

For rearview mirrors held on by a spring clip to pry the mirror up and off the bracket.

Equalizer®

TC1S TOYO® COMFORT GRIP SUPERCUTTER® WITH WIDE HEAD

Many automotive glaziers still cut flat laminated glass. The Toyo glass cutter is a very popular cutter in the industry.

- Self lubricating 140° carbide wheel with automatic oil-feed system for long life
- Clear handle for viewing oil level
- Interchangeable cutting heads

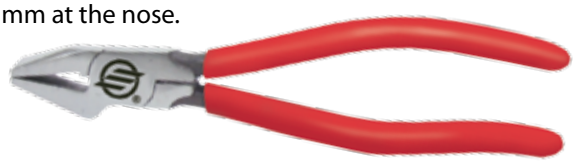
PRT305 PIN REMOVAL PLIERS

Remove and replace "Swing Out" friction pins. The jaws have five adjustable settings that will fit any swing out window. Start the friction pin and then use the plier pusher pin to push the friction pin into the latch.

Made in the USA

AD1007 DROP JAW GLASS BREAKING PLIERS

Drop Jaw Glass Pliers are longer, measuring 228mm long, and have a nose that flares from 13mm at the swivel to 25mm at the nose.



MFB150 FLAT FILE - 150mm

New Product

- Great for general filing to achieve smooth finish
- Sturdy rubber grip handle

Bastard Cut

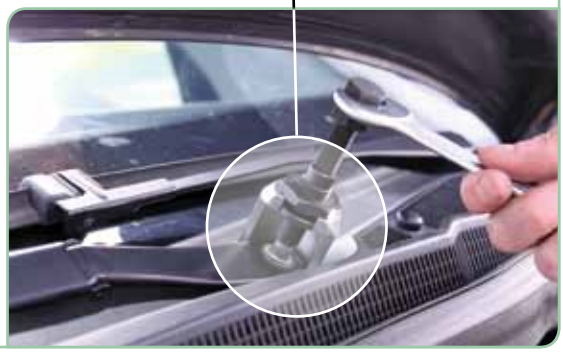
Wiper Arm Pullers

WAP800 ELITE WIPER ARM PULLER SET – 8 Pc

Many wiper arms and posts are cast from metal and composite plastic and are expensive to replace. This specialised elite wiper arm kit can help you avoid breakage or damage caused by trying to force these expensive wiper arms off. The kit is designed to remove various OEM wiper arms on Holden Astra, BMW, Ford, Jaguar, Peugeot, Mercedes, Mazda, Range Rover, VW, and many more.

A detailed list of compatible vehicles is supplied with each kit

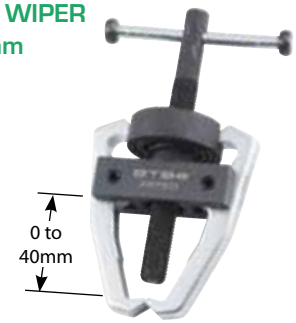
Comes in a handy Carry Case



XPG055 WIPER ARM REMOVER (SPINDLE & GRIPPER)

- Compact design.
- The number 8 gripper provides extra clearance (60mm) to remove high wiper posts.

AWP035 PRO WIPER PULLER – 40mm

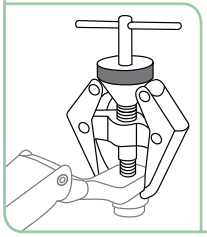


- Spring loaded jaws
- Robust narrow jaw design
- For removal of most wiper arms

AWP045 PRO WIPER PULLER – 60mm

AP3048 WIPER ARM PULLER

To remove the wiper nut, place this tool over the wiper arm then tighten the knurled cone screw until the jaws touch the wiper post. Turn the T-Handle clockwise to release the wiper arm from the shaft.

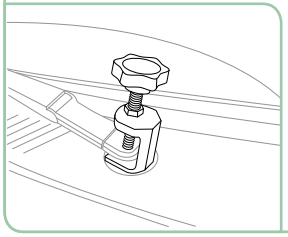


Avoids breaking the wiper arm and damage to the wiper shaft

No Force Required

WR7716 WIPER ARM REMOVER

Wiper arms can sometimes seize to the shaft requiring a sturdy puller to release them. Simply undo the retaining nut or screw, place the puller over the wiper arm ensuring the prongs are positioned on the arm and then screw the handle to apply pressure on the wiper post to release it.



BMW style puller

Glass Removal Assist Tools

RAT250 WINDSCREEN REMOVAL ASSIST TOOL

Once a technician has cut the top and sides of a windscreen they can use these budget style plastic windscreen removal assist tools which locate over the A-pillar and under the glass. As you cut the remaining urethane below the dash area and push the glass out these tools roll down the A-pillar and keep the glass elevated.

Equalizer

BDA251 FOOTLOOSE RUBBER GASKET RELEASE TOOL

Many vehicles have large, rubber-set windscreens which are difficult to push against while releasing the rubber gasket. With the Footloose™ it is easy to push out on the glass with one hand while you release the rubber gasket with the other hand.

Footloose

Storage and Trolleys NEW

Glass Polishing Products

AP4050 CERIUM OXIDE

- High quality, optical grade glass polishing compound.
- Mix with water to make a polishing paste.

Use with **AP4100** *Polishing Buff.*

AP4100 POLISHING BUFF

The polishing buff will remove light scratches and water deposits from glass. Generally, if you run your fingernail over the scratch and it catches, the scratch is too deep to be removed with the polisher. However, light scratches, windscreen wiper rubs and some water deposits can be removed or improved.

Foam Dam & Daubers / Applicators

Daubers are ideal for applying body primers to the pinchweld and glass or other bonding surfaces

- 100% Wool Ball.
- Lanolin-Free, Lint Free.
- 125mm long wire handle for extended reach.
- Packaged 100 units per zip-lock bag to prevent cross-contamination.

Marcy® WindowGuard™ Protection Film

Marcy Auto Glass Products

ME3030 WINDOWGUARD™ PERFORATED EMERGENCY PROTECTION FILM – 18 Mtr ROLL

Following the breaking of vehicle glass, WindowGuard™ protects the vehicle's interior until permanent replacement glass is installed.

If a vehicle needs to be stored outside awaiting glass replacement, WindowGuard™ protects the interior until glass is installed.

- Quick, economical and effective.
- Made from clear, flexible, self-adhesive film.
- Perforated for fast and easy installation.
- Strong enough for driving speeds! Extra clear material provides good visibility.
- Peels clean upon removal. No need for tape or messy cleanup!

See the product in action at btbtools.com/videos

18 Mtr Roll

Perforated every 91cm.

FEATURES

- *Protects vehicle interior from weather damage.*
- *Takes minutes to install.*
- *Costs far less than plastic inserts.*
- *Easy application from perforated roll.*
- *Leaves no residue and is weather proof.*
- *Clear film for good visibility.*
- *Secure fix - will not detach at high speeds.*

91cm Wide Roll

Universal Self-Adhesive Underglass™ Mouldings

Marcy Auto Glass Products

Self-Adhesive Underglass™ Uni Moulds

PUGM
Pro-Grade

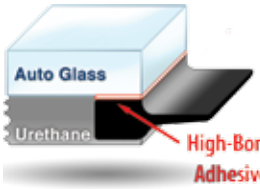
Marcy Pro-Grade ***PUGM*** uni mould features include:

- High Quality Self-Adhesive.
- Super-Flexible Rubber.
- Easy-Peel Liner.
- Wider tape, better bond.
- Superior cornering!
- Lead-free.

Clear Hi Bond Adhesive.

Blends with Frit / Ceramic Band.

22.8 Mtr Roll



More new vehicles are now designed with exposed-edge glass and under–the–glass mouldings. Marcy universal Underglass™ Mouldings make the work of the glass installer quicker, easier, and more profitable for these types of replacements and reinstalls.

PUGM2 ***SUITS:*** *Corolla Rear, Starlet Rear, Mirage, Lancer ¼ Glass*	PUGM3 ***SUITS:*** *Same as UGM2 with 2mm wider lip*	PUGM4 ***SUITS:*** *Ford BA2 & Territory*	PUGM5 ***SUITS:*** *Ford BA & Others*	PUGM6 ***SUITS:*** *Ford Territory & Others*	
See the product in action at btbtools.com/videos

PUGM *profiles **2, 3** and **6** are made of an extremely flexible sponge rubber material, especially useful for glass with tight corners. The **4** and **5** profiles are made of dense sponge that is both flexible and strong.*

Marcy® Vehicle Repair Wrap™ Protection Film

Marcy Auto Glass Products

ME3300 VEHICLE REPAIR WRAP™ – 30 Mtr ROLL
ME3220 VEHICLE REPAIR WRAP™ – 60 Mtr ROLL

Marcy vehicle repair wrap protects vehicle interiors from weather damage and dust until repair work can be completed.

Great for tow truck operators & yard storage.

Great for replacing inner door trim protective seals.

- This temporary protection film protects vehicle interiors during storage and keeps glass intact while towing.
- It is quick, clean, and easy to use and peels off without leaving residue. No need for tape or messy cleanup!
- Made from a strong clear, flexible, self adhesive film that uses a non-residue adhesive specially formulated for automotive paint.
- For broken side or back glasses Marcy Vehicle Repair Wrap also allows the owner to temporarily drive the vehicle while waiting for repairs or replacement components.

- *Protects vehicle interior from weather damage.*
- *Takes minutes to install.*
- *Unperforated; cut to the length you need.*
- *Leaves no residue and is weather proof.*
- *Clear film for good visibility.*
- *Secure fix; will not detach at high speeds.*

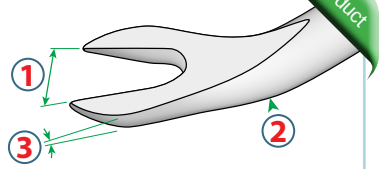
Trim & Panel Removal Tools

Equalizer

CRS610 PRO CLIP REMOVAL TOOL SET

New Product



① ***Wide opening***
Wide enough to allow most clip stems to pass to the back of the tool.

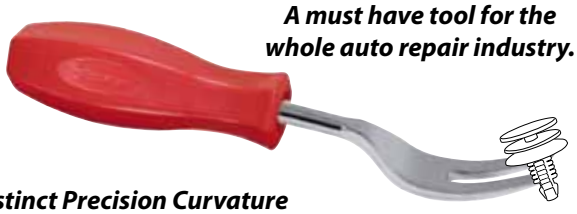
② ***Well positioned pivot point***
Carefully lever clips.

③ ***Fully tapered tip***
Gets under clips where other tools struggle.

AP6205 SPRINGER CLIP REMOVAL TOOL

✪ Brilliant for removing a huge range of components retained by clips, adhesives and double-sided tape. ✪ Advanced design offers hundreds of applications for every vehicle. ✪ Tapered tip allows entry under closely fitted parts. ✪ Radiused edges avoid trim or vehicle damage.

A must have tool for the whole auto repair industry.



Distinct Precision Curvature provides variable load distribution, safely moving load point along tool as more leverage is applied.

"BTB Best Seller"

AP6218 EXTRA LONG TRIM & CLIP REMOVER

This long reach trim removal tool is especially ***great for removing VE Commodore cowl panels***, scuttle clips, a range of door trim clips, large trim panels on vans or other applications where a retainer clip is located away from the edge.

Shaft length: 380mm - Total length: 495mm

AP6210 TRIM CLIP REMOVER

The V-Groove tip and special bend assists removal of clips, scuttles and interior trims and / or fittings and avoids damage to the vehicle components.

** BTB Best Seller **

AP6211RG SOFT GRIP TRIM CLIP REMOVER

This tool has the same popular design steel shaft as the AP6210, however has an ergonomic soft grip handle.

Anti-slip rubber grip

AP6215 MINI CLIP TOOL

This small V-Groove tip is designed to slip under the head of small clips, allowing the operator to pry the clip out of the hole or vehicle panel.

AP6216RG SOFT GRIP MINI CLIP TOOL

This tool has the same popular design steel shaft as the AP6215, however has a new ergonomic soft grip handle.

Anti-slip rubber grip

CTD607 RECESSED COWLING CLIP REMOVER

Fits easily down into recessed areas then slides under the cowling clip head. Then pull up on the clip's centre locking pin to remove the clip.

AP6230 DOOR HANDLE CLIP REMOVAL TOOL

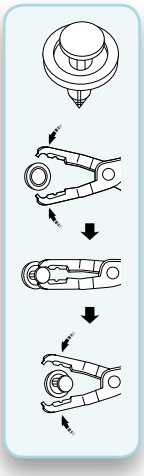
A specially designed tool that releases locking spring clips on inside door handles and window winder handles.

Trim & Panel Removal Tools cont

CRP035 CLIP REMOVER PLIER 35°
CRP080 CLIP REMOVER PLIER 80°

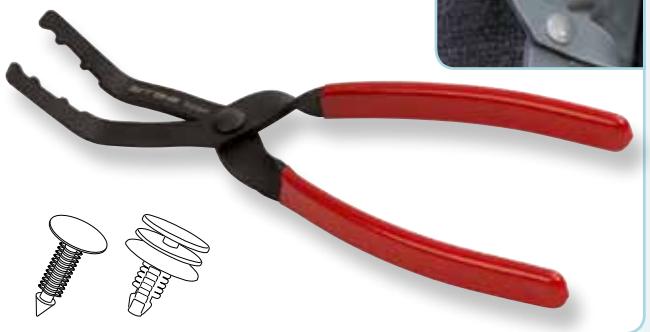
- Removes most late model body clip types
- Remove clips in hard to get places
- Save and reuse body clips
- Spring loaded
- Great for reaching restricted and tight places

Angled and tapered plier nose fits easily under clips



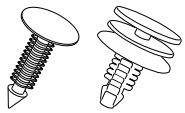
TCP217 TRIM CLIP PLIERS

- Removes door upholstery clips, trim pads and bonnet insulation covers
- Lever action profile grips the clip stem to reduce clip breakages



HC5226 STAINLESS STEEL TRIM & CLIP REMOVER – 5 Pc

This innovative professional 5 Pc trim & clip remover set has a range of small to large profile removal tools all designed with a bevelled tip to allow entry under flush mounted clips.



Equalizer

AP3350 TRIM CLIP / SCUTTLE REMOVER

Makes the frustrating job of clip removal simple. Removes scuttle panels, door trims, retainer clips, interior trims and fittings with ease. Simply slide the jaws of the tool under the head of the clip and squeeze down on the handle. The outside portion rests against the body while the inside portion grabs the clip firmly so it can be lifted up without damaging the paintwork or delicate trim panel materials.

Rubber grip handle

PSR253 COWLING CLIP REMOVAL TOOL

Easily remove and reuse push-type expansion fasteners. Screw the tool into the Phillips head slot of the fastener, then use the impact slide to bring it up quickly. The screw is instantly pulled out of the clip.

Save time and money involved in identifying, sourcing and waiting for new clips. Recycle and reuse!

BTB Tools carry an extensive range of popular auto glass and body shop clips. See pages 44 to 50.

Plastic Trim & Panel Removal Tools

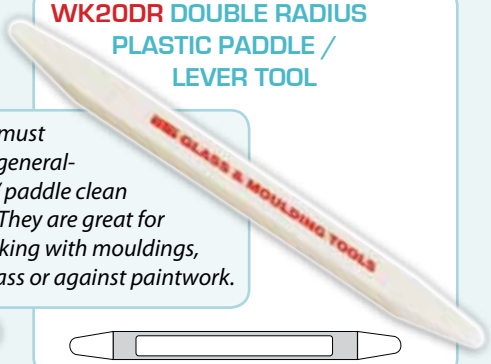
Equalizer

IWH692 INSTALLATION PADDLE / STICK & HANDLE

When one end of the paddle wears out, just switch ends. Replace with a new paddle when worn out.

WK20 PLASTIC PADDLE / LEVER TOOL

WK20DR DOUBLE RADIUS PLASTIC PADDLE / LEVER TOOL



Every glass installer must have one of these general-purpose lever / paddle clean up tools. They are great for working with mouldings, glass or against paintwork.

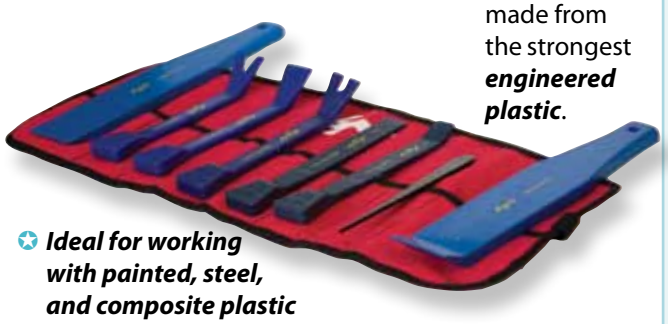
HC2148 PLASTIC LEVER REMOVER SET – 11 Pc

11 piece specialist plastic lever tool set for interior trim removal, supplied in a robust canvas tool bag.

AP6220 PLASTIC LEVER TOOL SET – 5 Pc

This 5 piece universal plastic lever tool set provides a safe removal solution to the increasing number of retaining clips and expensive plastic and material based trims.

LTFMPAK BOJO MASTER PANEL ADJUSTMENT KIT – 8 Pc



- All tools made from the strongest ***engineered plastic***.
- ***Ideal for working with painted, steel, and composite plastic materials.***
- ***Reduced damage*** to surfaces and coatings when working with door trims, boot linings, interior trim panels and interior trim clips.

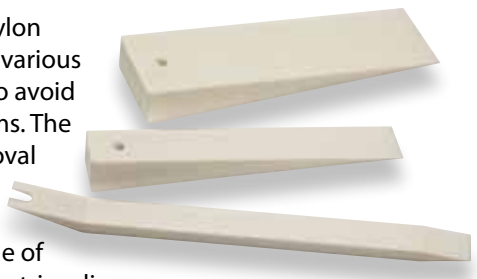
Specialised tips to lever panels

Safe adjustment of painted panels

Clip removal tool

UWS003 UTILITY WEDGE SET – 3 Pc

Three piece nylon wedge set for various applications to avoid damaging trims. The long clip removal lever is good for reaching into the middle of trims to release trim clips.



21730 EASY PRY TOOL

This non-marring plastic tool has a 25mm thin tapered wedge one end and a curved tapered "V" tip at the other end to assist with removal of trims, mouldings and retaining clips.

PH2100S PH2 x 100mm
PH2150S PH2 x 150mm

DOUBLE ENDED PHILLIPS DRIVER BIT

PH265D PH2 + PH2 x 65mm

BTB are authorised agents for TENG, KINCROME and other leading brands. A full range of tool kits, tool boxes and accessories are available.

We also build customised tool kits for the Auto Glass and Body Shop industry.

Socket Sets

AP2015 3/8" Dr METRIC SOCKET SET – 39 Pc

Contains regular and deep metric 6 point sockets.

Life-time warranty *- Ratchet 12 months*

KIT CONTENTS:

- 3/8" Ratchet
- Universal joint
- 3" wobble extension
- 6" extension bar
- Coupler adaptor
- 1/2" Female to 3/8" Male T-bar adaptor
- 8 to 22mm Regular Sockets
- 8,10,12,13,17 & 19mm Deep / Tube Sockets
- 16 & 21mm Spark Plug Sockets
- 1/4" Bits: TX10, TX15, TX20, HEX5, HEX6, FLAT4, FLAT5.5, PZ1, PZ2, PH1, PH2

T1436 1/4" Dr SOCKET SET – 36 Pc

This kit is well suited to automotive applications.

Life-time warranty
Ratchet 12 months

KIT CONTENTS:

- 1/4" Ratchet
- Universal joint
- 2" extension bar
- 4" extension bar
- Coupler adaptor
- 3/8" Female to 1/4" Male T-bar adaptor
- 4 to 13mm Regular Sockets
- 6, 7, 8,10,12 & 13mm Deep / Tube Sockets
- 1/4" Bits: – PH1, PH2, PZ1, PZ2, FLAT4, FLAT 5.5, HEX5, HEX6, TX10, TX15, TX20

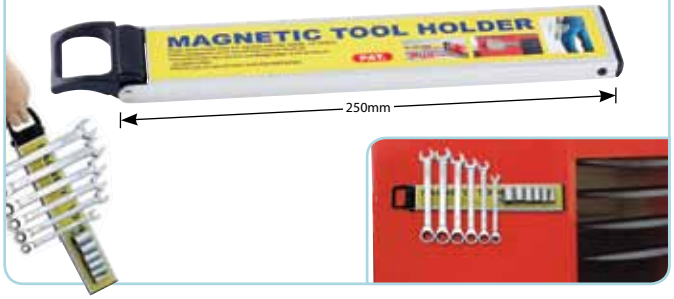
401-7 SMALL VICE GRIPS - 180mm

MB410 MULTI GRIP PLIERS – 250mm

Special Tool Accessories

MTH250 MAGNETIC TOOL HOLDER



WH808 MAGNETIC PARTS TRAY

- Rubber based to avoid paint damage
- 180mm Diameter

Attach to underside of car. Perfect for under car maintenance.

Equalizer

WK960 ADJUSTABLE AUTOMATIC CENTRE PUNCH

Adjust tension screw to desired pressure and apply force to activate punch.

AD1007 DROP JAW GLASS PLIERS

Drop Jaw Glass Pliers are longer, measuring 228mm long, and they have a nose that flares from 13mm at the swivel to 25mm at the nose.

Equalizer

AP6320 TELESCOPIC MAGNET

Pen type magnet used to locate screws, nuts , dollies etc that have been dropped or lost in vehicle engine bays or other cavities.

PRT305 PIN REMOVAL PLIERS

Remove and replace "Swing Out" friction pins. The jaws have five adjustable settings that will fit any swing out window. Start the friction pin and then use the plier pusher pin to push the friction pin into the latch.

Made in the USA

Equalizer

TAPE5M METRIC STEEL TAPE MEASURE – 5 Mtr

- Rubber back case
- 3 rivet end hook

Equalizer

DZ623 WINDOW RETAINING NUT MULTISPANNER™

- Five different sizes fit 95% of vehicles.
- Designed to use with 1/4" Dr socket wrench with an extension.

Fits these retaining nut styles and more.

ASW576 ADJUSTABLE RETAINING NUT REMOVAL TOOL

This fully adjustable tool can remove most window retaining nut sizes.

Made from hardened steel.

Equalizer

Rivet & Nut Fastener Guns

J701 PROFESSIONAL GRADE RIVET GUN

Supplied with four different nose pieces.

Sizes: Metric 2.4, 3.2, 4.0 & 4.8mm
Imperial 3/32", 1/8", 5/32" & 3/16"

CBR101RA J701 RIVET GUN ADAPTOR FOR CBR100 TOYOTA 100 SERIES RIVETS

This small diameter nozzle extension fits BTB's **J701** Professional Grade Rivet Gun.

TC705 RIVET GUN FOR PLASTIC RIVETS

Plastic rivets are becoming more popular on late model vehicles including BMW, Jeep, Chrysler, VW, Subaru and others.

GN72 PROFESSIONAL GRADE NUT INSERT FASTENING TOOL

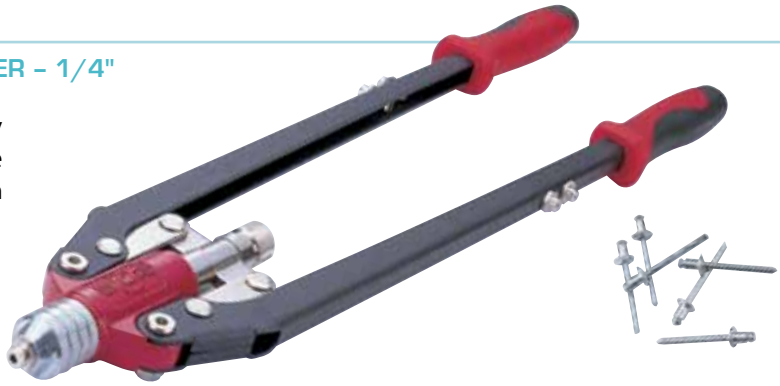
Includes 3 Mandrels for Nut Inserts: M4, M5 & M6

Supplied in Plastic Carry Case

HF151 HEAVY DUTY LONG ARM HAND RIVETER – 1/4"

Your work will become easier with this heavy duty lever action Long Arm Riveter. Simply squeeze the handles together to effortlessly fix the pop rivet in place.

Sizes: Metric 2.4, 3.2, 4.0, 4.8 & 6.0mm
Imperial 3/32", 1/8", 5/32" 3/16" & 1/4"



HF103 HEAVY DUTY COMBINATION RIVET & NUT INSERT FASTENING TOOL – 1/4"

Includes 5 Mandrels for Nut Inserts: M4, M5, M6, M8 & M10

Supplied in Plastic Carry Case

Suits Rivet sizes:

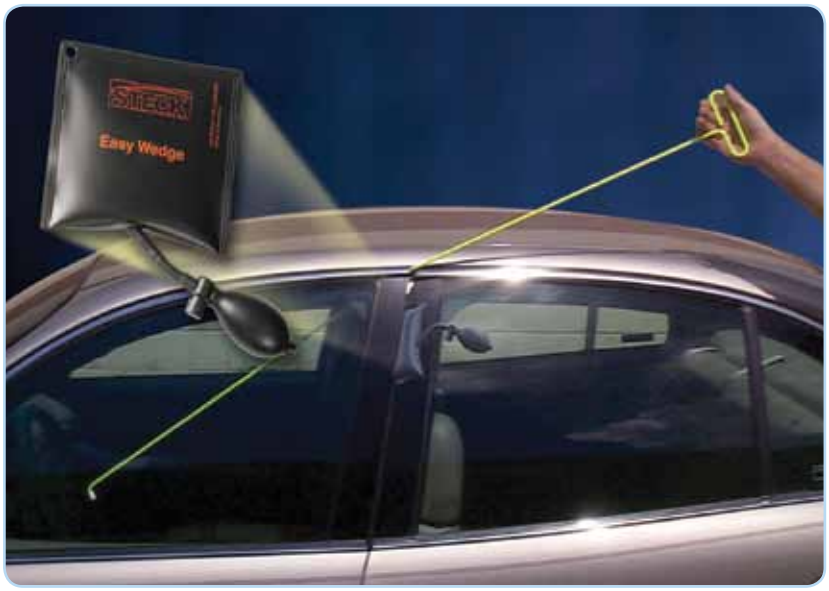
METRIC: 3.2mm, 4.0mm, 4.8mm & 6.4mm

IMPERIAL:
1/8", 5/32", 3/16" & 1/4"

BigEasy™ Vehicle Unlocking Tools

By BTB TOOLS

"Simple and swift access in a hurry"



- ***Make your life easy with BigEasy™ unlocking tools***

Spot Weld Drill

WK505BK BORON AUTOMATED SPOT WELD DRILL KIT WITH AUTO CLAMP

Comes with 2 x WK560 8mm boron tungsten drill bits for high strength metals

HIGH TORQUE SPOT DRILL FOR ULTRA HIGH STRENGTH STEELS

The WK505BK spot weld drill features the auto clamp automated pressure drilling system. It is fully adjustable to allow for different metal thicknesses. The tool operates at a slower 1000 rpm which helps avoid premature burn up of drill bits. Designed for higher strength (HSS) Steel and Boron (UHSS) Steel.

WK505BK Spot Weld Drill:

- Nozzle can be adjusted to drill single panel thickness
- Power ram automatically clamps jaws to both sides of pinchweld flange and applies the necessary drilling pressure
- Auto clamp detaches when it is not required
- Eliminates the need to apply manual pressure when drilling
- Reduces time and prolongs life of drill bits

Spot Weld Drill Bits

High Quality Bits Made In Germany

Marked items can be used in BTB's Boron Automated Spot Weld Drill WK505BK.

WK520 SPOT WELD DRILL BIT – 6.5 x 45mm

Make Drilling Spot Welds Easier

To suit standard drill.

Titanium coated

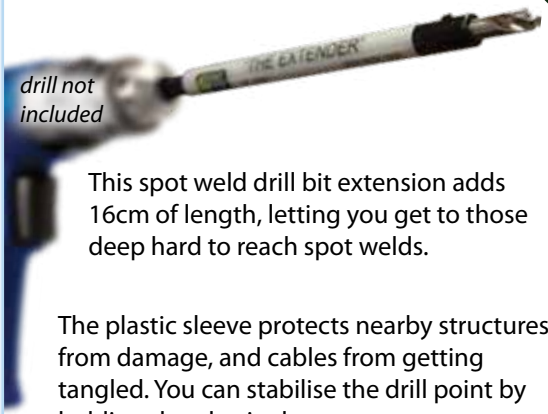
WK530 SPOT WELD DRILL BIT – 8.0 x 45mm

WK557 TITANIUM SPOT WELD DRILL BIT – 10 x 45mm

Titanium coated

DF1600K DENTFIX DRILL EXTENDER WITH 8mm DRILL BIT

New Product



drill not included

This spot weld drill bit extension adds 16cm of length, letting you get to those deep hard to reach spot welds.

The plastic sleeve protects nearby structures from damage, and cables from getting tangled. You can stabilise the drill point by holding the plastic sleeve.

- Works with any 3/8" drill. Recommended not to exceed 1800 RPM.
- Includes an 8 x 45mm HSCo drill bit.

WK560 TUNGSTEN CARBIDE SPOT WELD DRILL BIT – 8.0 x 46mm

Latest technology "Tungsten Carbide" spot weld drill bits are designed to drill out spot welds in high impact resistant metals present in late model vehicles.

Recommended for use on low RPM spot weld drills.

- Special Triple-Fluted Cutter Tip.
- Designed for use on Ultra-High Strength Boron Steel.

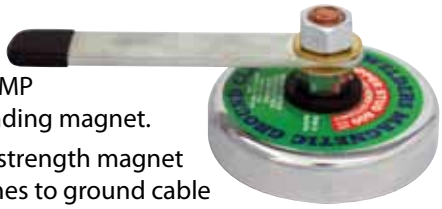
Bear Claws / MAXI Dent Puller Spares

MEC090 MAGNETIC GROUND EARTH CLAMP



- 800 AMP grounding magnet.
- High-strength magnet attaches to ground cable
- Convenient and easy to use.

New Product

Copper stud gives longer life & higher efficiency.

WW16 WIGGLE WIRE 1.6mm – Pkt 60
WW20 WIGGLE WIRE 2.0mm – Pkt 25

Spacing of this wiggle wire matches that of **WK930** and **WK932** bear claws.

WK930 BEAR CLAW – 100mm
WK932 BEAR CLAW – 150mm

Larger clamp ideal for heavier creased panels

Small clamp used for smaller creased panels

The bear claw fingers hook to the wiggle wire (**WW16** or **WW20**). The deepest part of the panel is pulled first, creating an even pull. As the damage is released additional fingers start to pull the panel until it is back to its correct alignment. These clamps provide a more consistent pulling pressure to the panel reducing repair time and body filler.

WK931C REPLACEMENT CLAW FOR WK930 & WK932

DF26500 DENTFIX STUD WELD PINS – Pkt 500

New Product

- Copper coated for conductivity and corrosion resistance.
- Made in Germany.

DF503L REPLACEMENT PULL ROD FOR DF505 DENT PULLER – LONG

DF503 REPLACEMENT PULL ROD FOR DF505 DENT PULLER – SHORT

DENT FIX EQUIPMENT

MAXI Dent Puller

SPITZNAGEL SPECIALTY TOOLS

The Spitznagel nail pulling system was almost an industry standard many years ago.

***Reliability is assured** and THE MAXI is a step up in technology.*

DF505 SPITZNAGEL MAXI DENT PULLING SYSTEM

The ultimate dent pulling station

THE MAXI is a 240 Volt single phase dent pulling station that provides the body shop technician with the ***power & versatility*** they need. The ***efficient and effective*** Spitznagel MAXI saves time, improves productivity and produces a cleaner, better repair. From the lightest finesse pulls to heavy creases this tool is equipped to handle all types of metal damage.

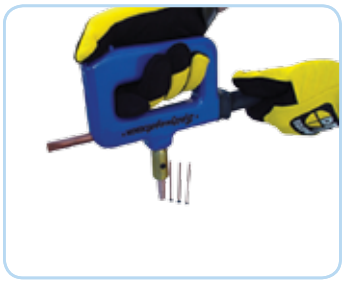
- ✪ Shrink metal ✪ Pull rocker panels ✪ Hail damage
- ✪ Fix creases ✪ Repair dents in hard to access areas

Taking the idea of a stud welder one step further, this versatile tool will:

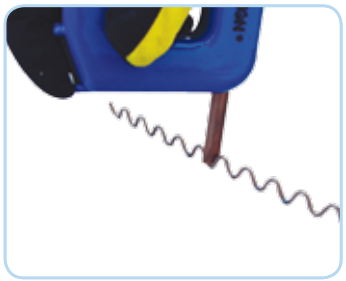
- ✪ Weld pins ✪ Weld a slide hammer directly to the panel
- ✪ Weld a light pulling rod ✪ Weld wiggle wire for even crease pulling
- ✪ Weld a rod for leverage pulling ✪ Shrink metal

Slide Hammer

Leverage Puller



Pin Welding

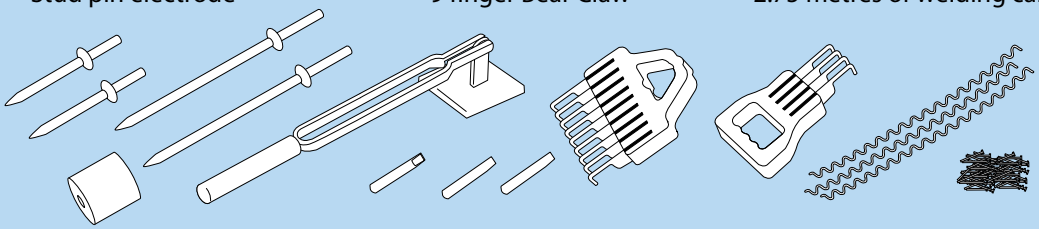


Wiggle Wire for Bear Claws

See the tool in action at btbtools.com/videos

KIT CONTENTS:

- THE MAXI 240 volt unit
- 4 pull rods (2 long, 2 short)
- Slide hammer strike weight
- Stud pin electrode
- Shrinking electrode
- Wiggle wire weld tip
- 4 finger Bear Claw
- 9 finger Bear Claw
- 1 packet of stud weld pins
- 1 packet of wiggle wire
- 6.4 metres of power cable
- 2.75 metres of welding cable
- Leverage puller
- Storage cart



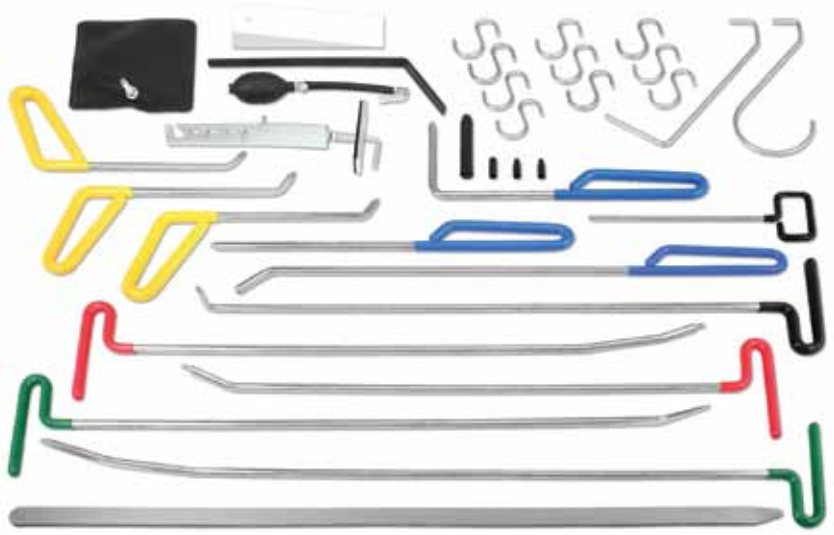
*The **storage cabinet** raises it up to hip level and provides storage space for all the accessories. The Z-brackets on either side of the stand are perfect for wrapping the cables.*

Paintless Dent Removal

PDRK33 PAINTLESS DENT REMOVAL KIT – 33 Pc

Explore the lucrative paintless dent removal market with this comprehensive kit designed to massage cosmetic damage including door dings and hail damage.

Supplied in a robust carry case



WH9601 G-HANDLE SUCTION CUP – 75mm
GHS100 G-HANDLE SUCTION CUP – 100mm

The G-Handle design suction cup has a very flexible rubber pad that can be used to pull small dents or apply pressure to a panel while performing repairs.

3 Cup Vacuum Slide Hammer Kit

#VSH125

Light Dent Pulling System. Simple and Effective.

Reduce time. Save $. Avoid risk of damage.

> Quick results without needing to remove interior trims to gain access behind the panel.
> Avoid the risk of damage to the vehicle's interior components.
> The soft rubber suction cup helps avoid further damage to the painted surface.
> Paintless dent removal applications.

Suck it and see!

Panel Clamp & Pulling Clamp Sets cont

PC301 TOTA LONG NOSE PULL CLAMP – 2 Ton

This long nose clamp can be used in box sections / rails with its narrow jaw set.

30mm jaw width.

PC302 TOTA MINI PULL CLAMP – 3 Ton

Highly popular mini pull clamp with double pull-ring for use in confined areas.

35mm jaw width.

PC102NN TOTA BOX CLAMP WITH PULL BRACKET – 3 Ton

This two pull ring box clamp can clamp over large seams and pinchweld flanges.

35mm jaw width.

PC601N TOTA RIGHT ANGLED PULL CLAMP – 3 Ton

Used over pinchweld flanges for right angle and straight pull.

120mm jaw width.

HD0140 MULTI FENDER PULLER – 1.5 Ton

This versatile universal fender pulling clamp is for pulling out damaged wheel arches, radiator supports, tail light panels or anywhere you find a lipped panel. The 3 pulling fingers adjust to the required shape.

20222 HANDY PULL KIT – PLATE & EYE BOLT SET

Kit contents:

- Right Angle Pulling Plate
- Bonnet Hinge Plate
- 10mm Eye Bolt
- 8mm Eye Bolt
- 6mm Eye Bolt

20033 QUARTER PULLER –150mm

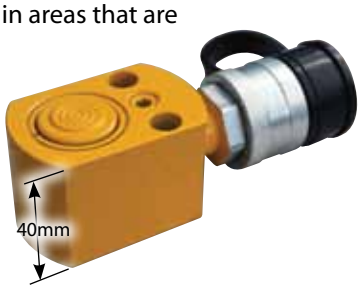
- Hooks above the lip of the wheel arch opening and fits most cars
- Faster than clamps or jacks

MR1153 LOW HEIGHT CYLINDER JACK – 5 Ton

New Product

Use this compact hydraulic ram attachment inside rails to push out damage in areas that are difficult to access.

- Single-acting, spring return
- Coupler and dust cap included
- Pistons hard chromed
- Polished ram



K223 FLOOR POTS

5 dynabolts included.

K215 CHAIN LOCK – 10mm

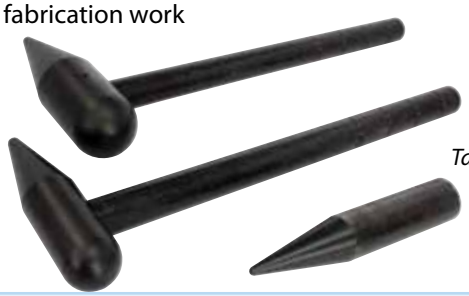
- For 8 Ton 10 mm chain.

Hammers

NCRH30 NYLON HAMMER SET – 3 Pc

New Product

Great for use with aluminium panels and light gauge metal fabrication work



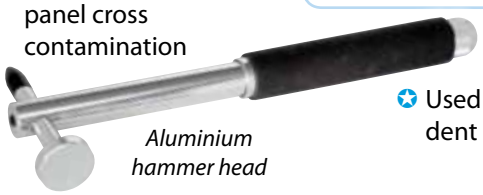
Tap-down tool

PDRH40 ALUMINIUM HAMMER WITH 4 INTERCHANGEABLE TIPS

New Product

Spare tips stored inside the handle.

- Avoid aluminium panel cross contamination
- Used for paintless dent removal



Aluminium hammer head

SH7501 DOOR SKIN HAMMER

New Product

- Rectangular heads fit in door flanges
- Angled head starts door skin fold
- Straight head, used for finishing

SH1039 FINISHING HAMMER – LONG REACH HEAD

Good for reaching around door frames on door skins.

PBRK6 PANEL HAMMER & DOLLY REPAIR KIT – 6 Pc

SH5651 STRAIGHT PEIN FINISHING HAMMER

SH9651 LIGHT FACE SHRINKING HAMMER

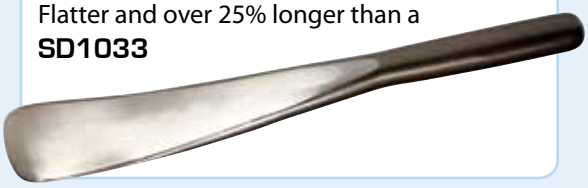
SD1024 LIGHT DINGING SPOON DOLLY

NEW PRODUCT

SD1390 LONG FLAT WIDE SPOON DOLLY – 390mm LONG

Flatter and over 25% longer than a **SD1033**



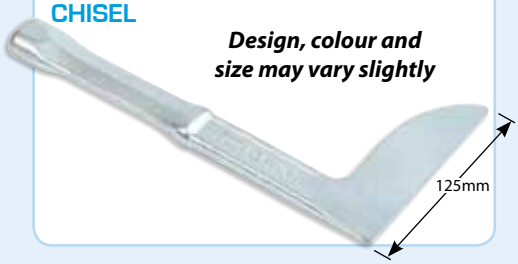
SD1033 FLAT WIDE SPOON DOLLY

SD1031 DOUBLE BLADE L HOOK SPOON DOLLY

SD1032 DOUBLE BLADE DR HOOK SPOON DOLLY

SD2542 TOTA OFFSET BOLSTER CHISEL

Design, colour and size may vary slightly



SD6123 NYLON BOLSTER HEAD CHISEL

WK950 RING HAMMER / FINGER DOLLY

Seam Buster & Chisel Sets

WK910 SEAMBUSTER CHISEL

Made out of super tough steel with soft grip handles to absorb shock.

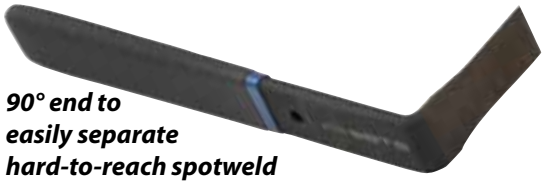
These Heavy-Duty chisels allow you to easily separate pre-drilled welded or bonded panels.

Sharpened on 2 edges – sharp end allows for penetration between panels and the side edge allows for side impact to separate panels without damage.

SB910 SEAMBUSTER CHISEL WITH V-NOTCH

The V-Cut profile helps locate on spot welds

20016 RIGHT ANGLED SEAM BUSTER CHISEL



90° end to easily separate hard-to-reach spotweld or bonded panels.

- Chisel edge on both sides for easily moving along seam
- Chisel tip for starting seam separation

Panel Holders

MPC255 MAGNETIC PAINT CLAMP

Simple and Fast method to secure mirror covers, door handles, flares, and other small parts for painting applications in a spray booth.

Use 2 Magnetic Paint Clamps for heavier parts.

New Product

Strong Magnetic Base for secure mount

Robust clamp securely mounts to small parts

New Product

K303 DOOR BOOT BONNET STAY - 2 Pc SET

- Made Entirely from ***stainless steel***
- Long stay ranges from 500 to 880mm
- Short stay ranges from 200 to 280mm
- Strong, light, firm locking slide.

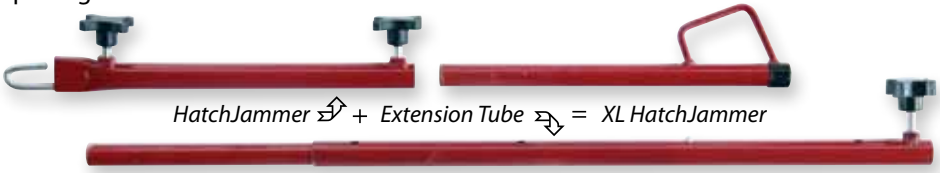
Panel Holders cont

17100 HATCHJAMMER™

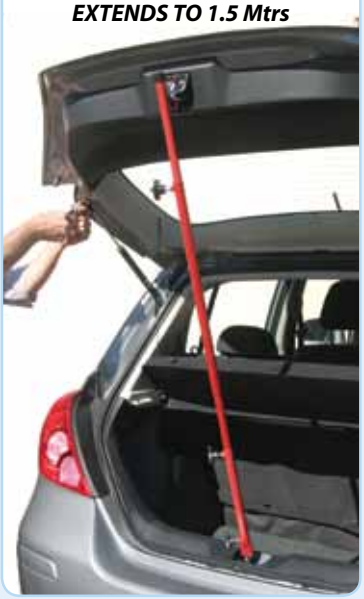
Easily adjust the work angle on a hatch door or panel to a comfortable and secure position when sanding, painting or repairing panels. The metal J-Hook end attaches to the striker and the fixed loop end to the hatch door. Adjusts from 290 to 600mm.

17200 XL HATCHJAMMER™

With the HatchJammer™ XL this time saving device can now be used for larger openings like those found on hatchbacks. **Extends to 1.5 metres.**



XL HATCH JAMMER EXTENDS TO 1.5 Mtrs



AP6325 ADJUSTABLE ALUMINIUM BONNET / PANEL HOLDER

Extends to 1200mm

LIGHT WEIGHT & DURABLE

- Support bonnets or rear hatches with leaking gas struts.
- Holds bonnet at preferred position while removing vent panel.
- Durable rubber stoppers on each end.

ABH120 ADJUSTABLE ALUMINIUM BONNET / PANEL HOLDER

New Product

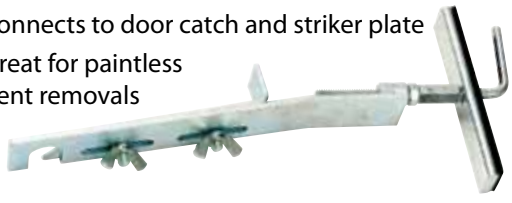
ROBUST & RELIABLE

Extends to 1200mm

Door Jammers / Clamps

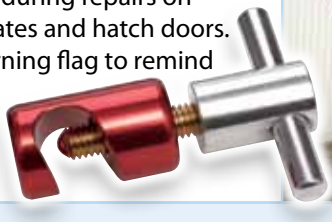
PDJ300 DOOR HOLDER / JAMMER

- Holds doors in place while working on a vehicle
- Connects to door catch and striker plate
- Great for paintless dent removals



WK450 GAS STRUT SUPPORT CLAMP

Designed as a temporary holding device for leaking gas struts during repairs on bonnets, boots, tailgates and hatch doors. Includes a visible warning flag to remind you to remove it when finished.



Panel Support Stands

AP4300 STANDARD WORK TABLE

Hold automotive glasses, panels and bumper bars etc.

- foldable
- sturdy

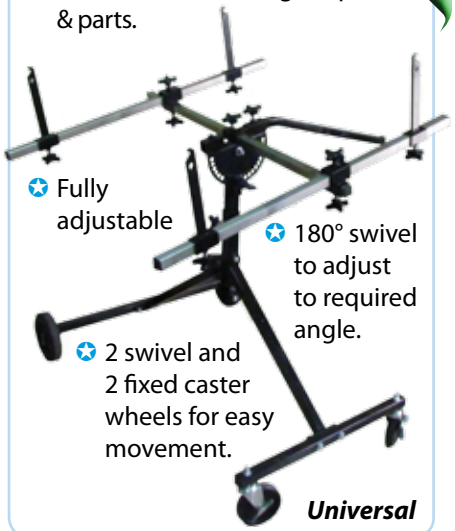
35756 WORK STAND WHEELER

See it in action at ***btbtools.com/videos***

AP4340 ROTATING PANEL SUPPORT STAND

New Product

- Attach & secure a range of panels & parts.



Universal

AP4330 REPLACEMENT FOAM SLEEVES FOR AP4300 WORK TABLE – Pair

35753 WORK STAND CLAMP

Great for holding and supporting a car door or other panels in place on work stand **AP4300**.

- Buy a PAIR for even more holding power
- Holds parts during work in progress

As seen in the SKIN ZIPPER video. Visit btbtools.com/videos

Marcy® Vehicle Repair Wrap™ Protection Film

ME3300 VEHICLE REPAIR WRAP™ – 30 Mtr ROLL
ME3220 VEHICLE REPAIR WRAP™ – 60 Mtr ROLL

Marcy vehicle repair wrap protects vehicle interiors from weather damage and dust until repair work can be completed.

Great for tow truck operators & yard storage.

Great for replacing inner door trim protective seals.

- This temporary protection film protects vehicle interiors during storage and keeps glass intact while towing.
- It is quick, clean, and easy to use and peels off without leaving residue. No need for tape or messy cleanup!
- Made from a strong clear, flexible, self adhesive film that uses a non-residue adhesive specially formulated for automotive paint.
- For broken side or back glasses Marcy Vehicle Repair Wrap also allows the owner to temporarily drive the vehicle while waiting for repairs or replacement components.

- *Protects vehicle interior from weather damage.*
- *Takes minutes to install.*
- *Unperforated; cut to the length you need.*
- *Leaves no residue and is weather proof.*
- *Clear film for good visibility.*
- *Secure fix; will not detach at high speeds.*

91cm Wide Roll

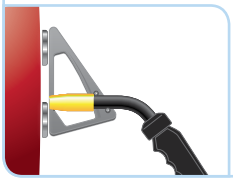
Panel Beating Tools & Accessories

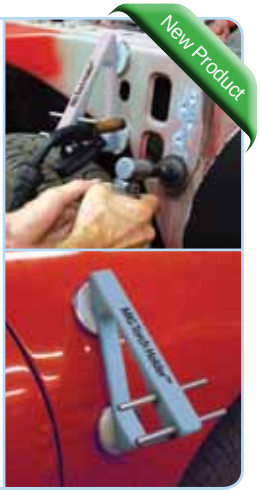
24200 MIG LIGHT HOLDER

New Product

Holds MIG torch conveniently close to work area.

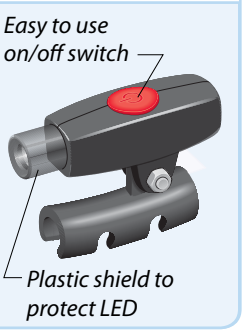
- Attaches directly to vehicle you are working on
- Designed for right or left-hand usage.
- Simple prong design for quick and easy retrieval.
- Spring-mounted floating magnets adjust to contour of vehicle body.
- Fits most MIG, TIG and Plasma touch heads.



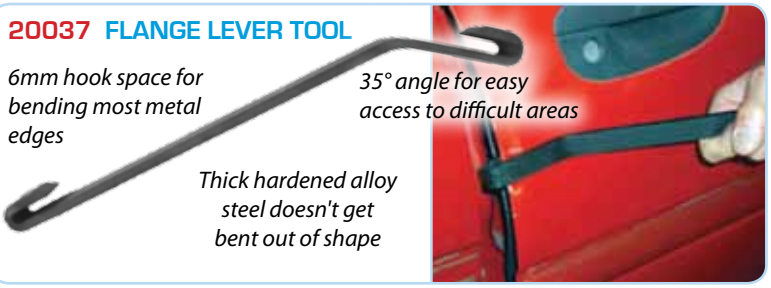


23240 LED MIG LIGHT

- Attaches in seconds to most welding heads
- LED light is long-lasting and durable
- Auto shut off after 30 minutes
- AAA battery powered



20037 FLANGE LEVER TOOL



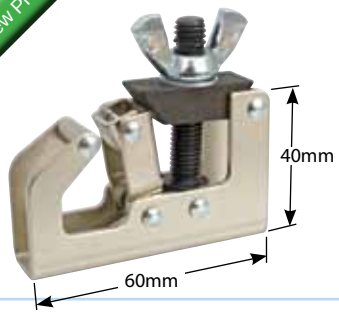
SOLO150M SOLO CLAMP - Metal Jaws
SOLO150NJ SOLO CLAMP - Nylon Jaws

New Product

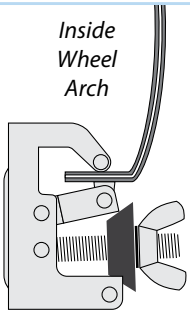
- Jaws open to 150 mm
- Operate with one hand.

WAC100 WHEEL ARCH CLAMP

New Product



- Use clamps in multiple applications to temporarily clamp panels.
- Quick & Easy Wing Nut tightening mechanism to apply clamps and adjust in seconds.
- Great for use on Wheel Arches to apply correct pressure without damaging outer panel.



WAC400K WHEEL ARCH CLAMP – 4 Pc SET

New Product

- Save and buy a set.

SWP020 PLUG WELD PLIERS

These plug weld pliers have a copper alloy base plate that locates behind the weld area and prevents weld penetration from sticking to the base plate.

TSP292 TIGHT SPOT™ – Set of 2

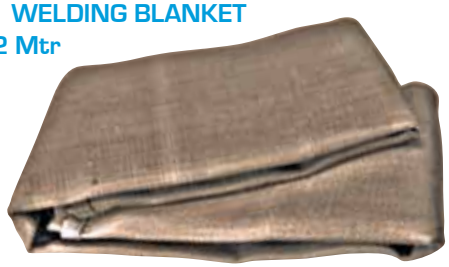
Tight Spots™ help protect doors from banging against other vehicles where cars are tightly parked. This is often the case in car workshops and dealerships where it is hard to move them to create space. Tight Spots™ are made of a piece of dense foam rubber on one side and a soft vacuum cup on the other side. ***Sold as a set of 2***

Panel Beating Tools & Accessories cont

21845 E-Z STORE DOOR ALIGNING BAR

- Fits easily into your tool drawer
- No long heavy bar to store
- Uses your breaker bar for leverage

LWB2020 WELDING BLANKET – 2 Mtr x 2 Mtr



SDP005 DOOR PIN EXTRACTOR KIT – 5 Pc

Easy removal and installation of door hinge pins.

The crank handle provides better access to some door hinge pins and reduces the risk of vehicle paint damage.

Has a blind counter sunk hole for reinstalling door pins.

Contents
Stepped Crank Handle
3mm pin
5mm pin
5mm long pin
5.5mm pin

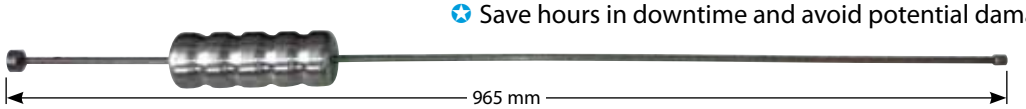
1051006 PIN SET FOR DPE004 & SDP005 – 4 Pc

Contents
3mm pin
5mm pin
5mm long pin
5.5mm pin

DSH965 DOOR PIN SLIDE HAMMER

New Product

- Use this great tool on older and difficult Door Hinge Pin removals.
- Save hours in downtime and avoid potential damage to vehicle paintwork.



- Quickly and easily removes pins intact.

20012 HANDY BAR

High strength, non-marring tool. Hammer out dents, block doors and bonnets, to re-align gaps and to apply crease lines.

Made of durable High Density Polypropylene.

AP3400 SUCK ON CLAMPS – Box of 6

This innovative tool is a temporary fastener system that assists in the application of:

- Body side protector mouldings
- Emblems and Badges

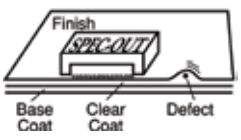
Essential tool for every body shop

29765 LEFT HAND OFFSET TIN SNIPS
29766 RIGHT HAND OFFSET TIN SNIPS

- Drop forged alloy blades
- Cuts up to 1.5mm cold rolled steel or 1mm stainless
- Squeeze quick-release catch
- Free plastic holder

35260 SPEC OUT NIB FILES – FINE

Remove paint imperfections with ease.



Photocopy this form as needed.

Fill in your requirements and fax to (03) 5441 5263 (+61 3 5441 5263) for prompt dispatch.
